TxCDBG Goals and Requirements

The goal of the Texas Community Development Block Grant (TxCDBG) Program is to develop viable communities by providing decent housing and a suitable living environment, as well as by expanding economic opportunities, principally for persons of low-to-moderate income. In awarding funding pursuant to Government Code Section 487.351(c), the Texas Department of Agriculture (TDA) shall give priority to eligible activities in the areas of economic development, community development, rural health and rural housing to support workforce development.

The objectives of the TxCDBG Program are:

1. To improve public facilities to meet basic human needs, principally for low-to-moderate income persons;
2. To improve housing conditions, principally for persons of low-to-moderate income;
3. To expand economic opportunities by creating or retaining jobs, principally for low-to-moderate income persons; and,
4. To provide assistance and public facilities to eliminate conditions hazardous to the public health and of an emergency nature.
- 5.

SUN Fund – General Program Information

Financial assistance is available through the SUN Fund as needed for eligible activities in relief of disaster situations where the Governor has proclaimed a state disaster declaration, either by proclamation or formal request for state agency assistance. Depending on the nature and extent of the damage caused by the natural disaster, priority for the use of TxCDBG funds is the restoration of basic human needs such as water and sewer facilities, housing and roads.

Recommended Steps in Application Process

Although certain steps may be completed at any point in the grant application process, TDA recommends completing the application as follows:

1. Evaluate the damage and determine the community's needs.
 - a. Determine what needs must be addressed immediately and what repairs can wait until funding is secured. The safety of the community and its residents is always the highest priority.
 - b. Best Practice: Request a visit from the Texas Division of Emergency Management (TDEM) to your community to perform a Preliminary Damage Assessment (PDA). The assessment will document the damage observed and support the repair or replacement cost estimates.
2. Decide whether TxCDBG SUN funds are needed:
 - a. TxCDBG SUN funds are not emergency relief, but an early part of the community's longer-term efforts to restore damaged infrastructure
 - b. Request the TxCDBG SUN preliminary forms packet and application by emailing Aubrey-Ann.Gilmore@TexasAgriculture.gov
 - c. Consider other available funding including local resources, insurance payments, and other state or federal funding partners through TWICC.org
 - d. Avoid duplication of assistance/benefit by carefully considering and documenting all funding options.
3. Review the Application Guide and consider potential eligible projects that would meet local needs.
4. Identify an Application Preparer. This may be a local staff person or a third-party consultant procured using TDA's Pre-Qualified Administrator procurement process. More information regarding this process can be found on the [TxCDBG Professional Services](#) web page.
5. Conduct public hearing to solicit feedback from community members regarding community needs. Notice of the public hearing must be provided no less than 72 hours prior to the hearing.

6. Discuss most feasible projects with the Application Preparer and decide which project(s) to pursue.
7. Identify an Application Engineer. This may be a local staff person or a third-party consultant procured using TDA's Chapter 5 Professional Services procurement process. More information regarding this process can be found on the [TxCDBG Implementation Manual](#) web page.
8. With Application Engineer, identify service area of the project(s) and preliminary cost estimate.
9. With Application Preparer, identify LMI beneficiaries of the service area via HUD data or income survey. More information on beneficiary documentation can be found on the [TxCDBG Beneficiary Documentation](#) web page.
10. If project area qualifies, continue preparing application data with Application Preparer.
11. Present local resolution to local governing body to authorize submission of the application – this resolution includes the project description and commitment of any matching funds and must be passed after conducting the public hearing.
12. Finalize the application.
13. Publish notice of application availability. The application must be available for public review for no less than five (5) days:
 - a. after the local resolution is passed;
 - b. after the notice of availability; and
 - c. prior to the application submittal deadline.
14. Submit the application to TDA.

Part I. SUN Fund – Specific and other Program Requirements

Action Plan

The requirements and procedures specified in the 2020 TxCDBG Program Action Plan will govern the 2020 CD Fund application process. The Action Plan is available on the TDA website at www.TexasAgriculture.gov.

SUN Fund Application Submittal and Deadline Requirements

This application guide contains only the procedures and application package needed for the State Urgent Need (SUN) Fund.

The SUN Fund has no application deadlines.. Applications are received on a “first come, first-served” basis, with applications accepted and reviewed throughout the year.

NOTE: If needed in the ranking of applications based on available funds remaining, a tie between multiple applications shall be broken as follows:

- 1) number of low-to-moderate income beneficiaries, with the higher number ranking higher;
- 2) percentage of low-to-moderate-income beneficiaries, with a higher percentage LMI ranking higher;
- 3) (if needed) applicant’s poverty rate, with the highest poverty rate ranking higher;
- 4) (if needed) applicant’s annual unemployment rate, with the highest annual unemployment rate ranking higher.

Amount of Grant Funds Requested SUN Fund applications may request no more than \$350,000 in eligible project activities, including engineering and administration costs. All SUN Fund applications must request a minimum of \$50,000 in eligible project activities, including engineering and administration costs.

Applications that address natural disaster events across multiple jurisdictions may be eligible for larger grant amounts (not to exceed \$1,000,000). Eligibility requirements for multi-jurisdiction applications are as described in the Jurisdiction of Applications section of this guide.

Applications that do not support this minimum award amount will not be considered for funding.

National Program Objectives (NPO)

For the State Urgent Need (SUN) Fund, a community must meet the “Urgent Need” NPO to be eligible for funding.

Definition of Urgent Need NPO: Meet other community development needs of particular urgency that represent an immediate threat to the health and safety of residents of the community.

In order to qualify under the Urgent Need (UN) NPO, activities must be designed to meet community development needs having a particular urgency. An activity addresses this objective if it is designed to alleviate conditions of recent origin which pose a serious and immediate threat to the health or welfare of the community. The unit of general local government must be unable to finance the activity on its own, and funds from other external sources must be unavailable.

TxCDBG applicants must document the beneficiaries of proposed activities that qualify under the activities designed to meet community development needs having a particular urgency. If the beneficiaries are documented to be 51 percent low-to-moderate income, the national program objective will be reported to HUD and in the TxCDBG Contract as LMI not UN.

SUN Fund Program Requirements

To qualify for the SUN Fund, the applicant and the proposed project must meet the following requirements:

- The situation must be both unanticipated and beyond the control of the local government. For example:
 - A water tower that collapses due to age or a lack of maintenance would not be eligible for funding.
 - Repair of water tower that was destroyed by a tornado would be an eligible activity.
- The disaster occurrence being addressed in the SUN application must be within a defined period. The application for assistance must be submitted to TDA no later than six (6) months from the date of the applicant being named in a disaster proclamation of the Governor or a request for assistance letter from the Governor's Authorized Representative (GAR).
- Local or other funds are not available or sufficient to address the problem (i.e., the entity has less than six months of unencumbered general operations funds available in its balance as evidenced by the last available audit required by state statute, or funds from other state or federal sources are not available to completely address the problem). Applicant must disclose insurance reimbursement in the application.
- SUN Fund financial assistance should be viewed as last resort financial assistance. If infrastructure is demolished by a tornado, assistance should not be requested from the SUN Fund until all other avenues have been exhausted (e.g., private insurance, Small Business Administration, TDHCA, etc.).
- TDA may consider whether funds under an existing TxCDBG contract are available to be reallocated to address the situation.
- SUN Fund assistance can only be utilized for the permanent, long-term solution of a problem and cannot make temporary improvements. For example:
 - If a locality loses its only water source, the funds cannot be used to haul water as this is considered a temporary solution.
 - Drilling a well or connecting to another water system could be considered a permanent solution.
- TDA may determine that a community with a history of unsatisfactory performance and/or management capacity on previous TxCDBG contracts may still be eligible for funding under the SUN Fund; however, the contract administrator for the SUN Fund grant must be approved by TDA.
- An eligible applicant could conceivably receive multiple SUN Fund grants during a single program year; however, in no instance will an applicant receive more than one grant to address a single occurrence of a proclaimed disaster.

SUN Funding Priorities and Project Timeline

TDA will prioritize applications for **safe drinking water**, (first), and **debris removal**, (second), over other eligible activities. TDA may also prioritize the use of SUN funds for other activities by announcing the priority on TDA's website and/or the application guide.

Due to the urgent nature of projects, activities funded under the SUN Fund must be completed within eighteen (18) months from the start date of the contract agreement. A TDA contract specialist will be assigned to ensure that the various program requirements have been documented, including receipts or invoices for costs incurred. Funds will be released to reimburse the community as work is performed and contract requirements are completed.

Eligible Activities

Descriptions of eligible activities under the TxCDBG program are located in Section 105(a) of the federal Housing and Community Development Act of 1974. Activities eligible under the State Urgent Need (SUN) Fund are the same as those under the TxCDBG program. The following are examples of activities eligible under the SUN Fund:

Eligible SUN activities include repair, replacement, rehabilitation, or improvement of public infrastructure, including mitigation measures appropriate to the project.

- SUN funded activities must address damage caused by the disaster event or resolve an issue that is a direct result of the disaster event (i.e., emergency construction, reconstruction, or installation of public facilities such as water and sewer facilities, street improvements, drainage/flood control improvements, solid waste disposal facilities, and other publicly-owned utilities)
- Mitigation measures such as elevating critical equipment or installing generators to avoid future damage are not eligible as the primary SUN funded project; but, may be included to further improve an otherwise eligible project.
- Activities to address privately-owned water and wastewater systems may be considered if at least 15 percent matching funds toward construction are included in the application and proposed beneficiaries are at least 51 percent low-to-moderate income;
- Demolition/clearance associated with a reconstruction of damaged property posing an immediate threat to public safety;
- Acquisition of real property located in the floodplain or acquisition of property to be used for the provision of eligible TxCDBG activities
- For projects proposing water/wastewater activities, TDA may require discussions between the applicant, representatives of TDA, the Texas Commission on Environmental Quality (TCEQ), and the Texas Water Development Board (TWDB) take place prior to project approval. Through these discussions, a determination shall be made whether the situation meets TxCDBG threshold criteria; whether shared financing is possible; whether financing for the necessary improvements is, or is not, available from the TWDB; or that the potential applicant does, or does not, qualify for TWDB assistance.

Pre-agreement cost reimbursement may be considered if the locality requests such consideration in writing and receives prior approval from TxCDBG. **Only costs incurred after passage of the governing body resolution authorizing the preparation and submission of the SUN Fund application may be requested under the pre-agreement strategy.**

Ineligible Activities

- Construction of public facilities that did not exist prior to the disaster.
- Activities that provide a short-term solution to a problem or for temporary improvements.
- Reimbursement of manpower costs already expended with early temporary repairs.
- Reimbursement for work already completed.
- Redundant or backup systems.
- Disaster events which have received a Presidential declaration of disaster, or for which the Governor's Request for Presidential Disaster Declaration has been submitted and is pending.
- Repair of residential or commercial properties.
- Costs covered by insurance or other funding sources.
- Other activity limitations outlined in Part II: General TxCDBG Application Requirements.

Evidence of Disaster-related Damage

The application must include the following documentation:

- Copy of the disaster proclamation from the Governor or a request for assistance letter from the Governor's Authorized Representative (GAR) that names the applicant as part of the affected area.
- A damage assessment documenting the location and cost estimate of each disaster-damaged site requested for funding, prepared by a professional engineer. (Note: if the engineer preparing this cost estimate intends to serve as

the project engineer, the community must complete TxCDBG procurement/selection processes before beginning the assessment or other project related work.) If TDEM has provided applicant with a Preliminary Damage Assessment (PDA), the PDA may satisfy this requirement.

- Photos of the damage sustained within the proposed project area and clearly labeled, and legible map(s) corresponding to proposed project site photos.
- For drought-related applications, documentation that the utility has reported to state regulators that it expects to be “out of water in 180 days or less”. Applicants must use documentation provided by the Texas Commission on Environmental Quality (TCEQ) (e.g., Drought Priority C posting from TCEQ).

The Texas Engineering Practice Act requires most public works projects to be designed, supervised, inspected, and accepted by a registered professional engineer. **If the project is exempt from this requirement under §1001.053, Texas Occupations Code, the applicant must document the exception through a letter certified by the authorized official.**

Part II: General TxCDBG Application Requirements

Application Completeness

Any application that is incomplete or noncompliant with program requirements will be disqualified. Applications lacking information necessary to make a determination concerning the eligibility of the activity (e.g., data on low-to-moderate income benefits) or compliance with TxCDBG and Federal program requirements (e.g., citizen participation requirements) will be disqualified. A complete TxCDBG application must include all of the following information:

- 424 Form, signed by authorized representative
- All application forms, fully completed;
- A passed/adopted Local Government Resolution authorizing submission of the application;
- Evidence of compliance with the TxCDBG Citizen Participation Plan including the Public Hearing Notice and Notice of Application Availability;
- Legible, quality maps; and
- Annual Audit (See Attachments Section).
- Active SAM.gov registration for applicant

Applications lacking any of the items listed above will be disqualified. An Application Review Checklist is located at the end of the Application Guide. Applicants must verify that the application is complete using the checklist.

Completed applications may be subject to disqualification for any of the following reasons, including but not limited to::

- The applicant is not a unit of general local government;
- The project is located in an entitlement area;
- The application contains ineligible activities;
- The applicant does not comply with the TxCDBG Citizen Participation Plan requirements;
- The applicant does not meet the Applicant Threshold Requirements, if applicable;
- The application contains false information;
- The applicant did not comply with the TxCDBG survey requirements;
- The application does not contain adequate or acceptable information to show that each proposed application activity meets a National Program Objective;
- The application does not comply with the requirement concerning the preparation of an assessment of the applicant's housing and community development needs prior to submission of a TxCDBG application;
- The applicant does not provide the information required in the TxCDBG Applicant/Recipient Disclosure/Update section of the Application;
- The applicant does not respond, refuses to respond, or does not provide an adequate response to requests for revisions or additional information within the prescribed timeline;

TDA will not award TxCDBG funds to the same (or substantially the same) project under a different fund category. However, if a SUN Fund application is unsuccessful, project funding may be available through another fund (e.g., Community Development) if the appropriate application criteria are satisfied.

Basic Eligibility Documentation Requirements

Resolutions

TxCDBG applications require a resolution from the local governing body (i.e., County Commissioners Court or City Council) authorizing the submission of that application. The governing body must adopt/pass the resolution before the application submission and after the application public hearing. Failure to comply with these resolution requirements may result in disqualification of the application.

The language of the resolution must, at a minimum:

1. Authorize the submission of an application for funding under the Texas Community Development Block Grant Program.
2. Designate the fund category under which the application is to be considered.
3. Designate the activities addressed in the application.
4. Designate the dollar amount being requested.
5. Designate a person(s) (e.g., County Judge, County Commissioner, or Mayor) who will be authorized to execute documents in conjunction with the application, and any resulting grant contract.
6. Commit to the provision of resources by source and use (if applicable) in support of the proposed project activities, including the specific source (e.g., General Fund, Water/Sewer Fund, General Obligation Bonds) and use of those resources.
7. Commit to compliance with all federal, state, and program requirements, including environmental review, labor standards, procurement, acquisition of property, civil rights, and administrative requirements.

In a multi-jurisdiction application, a cooperative agreement must also be included and signed by all participating local governments, and must state which participant will serve as the lead administrative entity if the project is funded. Additionally, each locality participating in a multi-jurisdiction application must submit a resolution adhering to the guidelines above.

For a sample resolution, see Appendix IV: Form/Document Samples.

Published Notices of Public Hearing and Application Activities

Prior to the preparation and submission of an application for TxCDBG funds, each applicant must hold at least one public hearing and publish a notice that describes the application activities and the availability of the application(s) for public review.

The public hearing gives citizens information about the Texas Community Development Block Grant Program and eligible program activities, as well as opportunities to participate in the development of the applicant's community development and housing needs and the development of TxCDBG applications.

The public notice gives citizens information on proposed uses for the funds and an opportunity to review and comment on the application(s) prior to submission.

Other requirements include:

- Public notices should be prominently posted in public buildings and distributed to local Public Housing Authorities and other interested community service providers.
- Ensure nondiscrimination by taking reasonable steps to ensure meaningful access for persons with Limited English Proficiency (LEP) by providing language assistance as appropriate.
- Persons with disabilities must be able to attend the hearing and an applicant must make arrangements for individuals who require auxiliary aids or services, if contacted at least two days prior to the hearing.
- Local organizations that provide services or housing for low-to-moderate income persons, including the local Public Housing Authority, Health and Human Services office, Faith-based organizations, and Mental Health and Mental Retardation office, must receive written notification concerning the date, time, location and topics to be covered at the public hearing.

The written notification sent to local service providers for the public hearing must include the date, time, location and topics of discussion at the public hearing (a copy of the notice will suffice if it includes all required information). Send this notification to service providers serving the jurisdiction's residents – if a local office is located in the community, then that office should receive the notification. If a local office is not located in the community, send the notification to the local or regional office location that serves the jurisdiction's residents.

The following items are required as evidence of adherence with public hearing and public notice requirements:

1. A copy of the actual published public hearing notice for the required public hearing. The notice must conform to the requirements of the Citizen Participation Plan, including specifics such as the date, time, location of the hearing and the topics to be discussed.
2. A copy of the actual published notice of the application(s) activities and availability of the application(s) for public review. The notice must conform to the requirements of the Citizen Participation Plan including the timing of the published notice and the information included in the notice.
3. A listing of the local service providers that received written notification of the public hearing. Copies of the written notifications must be kept by the applicant and will be reviewed by TDA staff during site visits. Again, the written notification must conform to the requirements of the Citizen Participation Plan including specifying the date, time, and location of the hearing and the topics of discussion.

TDA recommends verifying that the public notices are published on the correct days, as well as allowing sufficient time for publication and public hearing issues to be resolved rather than completing these steps just prior to submitting the application.

For sample public notices, see Appendix IV: Form/Document Samples.

Evidence of Active SAM Registration

TxCDBG applicants must demonstrate an active registration in the System for Award Management (SAM) to be eligible for funding. The applicant shall include a screen-shot from the SAM website at <https://sam.gov> verifying the entity's registration is active. Without evidence of an active SAM registration, the application is ineligible to receive HUD funds and will be disqualified.

Annual Audit

Applicants must comply with the audit requirements in the Texas Local Government Code for the fiscal year ending 2019 or later. The applicant is required to submit its most recent annual audit or audit opinion letter with its application to demonstrate financial capacity. The audit opinion letter is preferred to the whole audit (Note: not the management letter). A certified public accountant (CPA) who is licensed in this state or a public accountant who holds a permit to practice from the Texas State Board of Public Accountancy must conduct the audit and prepare the annual financial statement. Applicants may not submit self-performed audits. The audit must be an organizational-wide audit and cannot be limited to certain parts of the organization. Annual audits for fiscal years ending on or before December 31, 2018 will not be accepted. Failure to submit an audit for FY 2019 or FY 2020 by the application deadline will result in automatic disqualification.

Project Specific Documentation Requirements

Project Maps including Census Maps

Each application for TxCDBG funding must include a project map, or maps, which clearly show the following information:

- The boundaries of the applicant's jurisdiction;
- The boundaries of the county;
- Location(s) of the target area community or communities; and
- Location(s) of all proposed project activities (e.g., sewer/water lines, lift stations, street pavement, water storage tanks, water wells, wastewater treatment plants, public facility improvements, etc.)

Applicants using HUD-Census-based data (LMISD) to document project beneficiaries must provide maps that clearly show:

- All of the Census geographic areas (e.g., census tracts, block numbering areas, block groups) within the applicant's jurisdiction if LMISD data is used to document project beneficiaries;
- Locations of the project activities (on the same census maps), including the clearly defined boundaries of the proposed project's service area.; and
- The census tract numbers, block numbering area numbers, and block group numbers must be legible.

In addition, applicants requesting a project within a floodplain should submit a FEMA Flood Map with the project location identified. If this map documents that any part of the project is located in a flood way, the applicant must provide evidence that project is eligible for consideration in accordance with 24 CFR 55.1(c). Maps are available at <https://msc.fema.gov>

The project area or service area boundaries **MUST** also be delineated on all maps.

Maps must be reproducible. Care should be taken in copying maps so that project activities that may have been designated by a colored mark are still identifiable.

Applicants are advised to note any property owners that may be in and/or adjacent to the benefit area to ensure that no potential conflict of interest exists. (See the "*Conflict of Interest*" section of this Guide) Identification of property owners is not required to be noted or submitted with the application, but failure to identify potential conflicts of interest may be subject to the sanctions described in the "*False Information on Applications*" section of this guide.

Documentation of Match

The following guidelines serve to clarify the type of match acceptable under the Texas Community Development Block Grant Program. Acceptable types of match can be any of the following:

- Cash only;
- In-kind services/equipment use;
- Materials or supplies;
- Land; or
- Any combination of the above.

For more information on the acceptability of each of the different types of match, refer to Appendix II: Matching Funds.

While other resources are strongly encouraged, the commitments for these matching funds must be fully documented as to source, type, use, and minimum dollar amount before they can be considered in the scoring of an application.

Local government resource commitments must be made in the form of a Resolution from the City Council or County Commissioners Court. This resolution should indicate, at a minimum, the type of resource (e.g., land, labor, materials,

money, etc.) and the source, a minimum dollar value to be provided, and for what purpose(s) this resource will be used. Please note here that local match can only be counted for expenditures that would not occur if the proposed application is not funded, with the exception of local funds expended for consultant engineering and administrative services.

Resource commitments provided by other local entities (e.g., public housing authority, special utility districts, private financial institutions or other similar sources leveraging loan funds with a local housing rehabilitation program or other TxCDBG-eligible activity) must be documented in a letter signed by a person authorized by that entity to make such a commitment. This letter should identify the type of resource, a minimum dollar value, and for what purpose this resource will be used. Applicants who are unsure about the eligibility of a commitment from other local entities should contact TDA staff.

Commitments for other State or Federal funds (e.g., Texas Water Development Board, USDA) must be supported by a grant/loan offer, contract award letter, etc., signed by a person authorized to make such a commitment for that agency for an activity directly related to activities included in the TxCDBG funding request. This evidence must include identification of the resource, a minimum dollar value, and the purpose for which this resource will be used. These resources cannot have been expended before the application is submitted.

All resources committed in an application and considered in the scoring of that application must be provided in the event that the project is selected for funding. If these resources are not made available, the locality may be subject to the sanctions described in the *“False Information on Applications”* section of this guide.

Additionally, the use of other funds (e.g., federal, state, or local) in conjunction with TxCDBG funds generally triggers a series of compliance requirements that might not be applicable if those funds were to be used independently. These requirements include but are not limited to environmental review, labor standards, real property acquisition (including easements), prohibition of special assessments, and financial management procedures.

Identifying Activity Beneficiaries

Applicants are **required** to document and report the beneficiaries’ income levels of each proposed application activity regardless of the NPO met by the activity. Low to moderate income (LMI) individuals are those whose income is 80% or less of the area median family income (AMFI). Clear documentation of an applicant’s beneficiary identification method must be received with the application.

- HUD’s Low-Moderating Income Summary Data (LMISD) may be used to document beneficiaries within a specific Census geography. To obtain a Census map of a specific area, visit the [HUD LMISD Mapping Application](#).
- Use of door-to-door surveys is an acceptable method for documenting beneficiary income levels. Refer to the agency website at www.TexasAgriculture.gov for a copy of the most recent **Survey Methodology Manual** and required survey forms. Use the survey method to document beneficiaries for projects that have a small benefit area or for proposed project activities with a service area that cannot be “reasonably delineated” by standard census geographic areas (Place, Census Tract, Block Groups).

Applicants for TxCDBG SUN Fund assistance should contact TDA for assistance in determining the required beneficiary documentation based on the proposed activities.

Jurisdiction of Applications

The applicant (city or county) requesting TxCDBG funding must have jurisdiction to provide oversight for the project. Specifically, the project beneficiaries must reside within the applicant's jurisdiction.

Partnering Jurisdictions

If only a portion of the project beneficiaries are located within the applicant's jurisdiction, the applicant must partner with another unit of general local government that has jurisdiction.

- In addition to the citizen participation requirements for the Applicant, each participating jurisdiction must conduct a separate public hearing. This hearing will address the community's housing and community development needs and how the proposed activities are designed to meet those needs.
- The Applicant and each participating jurisdiction must enter into an interlocal agreement, outlining the responsibilities of each participant and establishing the Applicant's authority to implement the project outside its own jurisdiction.
- All jurisdictions participating within the application must be TxCDBG eligible. For example, if a city and county are partnering on an application and the city is currently ineligible due to past performance issues, the application is ineligible.
- For projects with multiple jurisdictions that include multiple target areas must establish NPO for each target/service area. For example: a WSC provides service inside city limits and in the unincorporated county. Rehabilitation of water well shall benefit both City and County residents and shall be considered one service area. Additionally, residential water lines will be replaced in an unincorporated area of the county and shall be considered a separate service area. Appropriate beneficiary documentation must be provided for both service areas.
- For activities with a single service area due to their nature, such as the sewage treatment plant that would serve each of the participating jurisdictions, the application should consider this a single target area.

Partnering with an Applicant will not prevent the partnering jurisdiction from submitting a separate unrelated application in the same round of funding, so long as:

- projects in separate applications do not serve the same (or substantially the same) service area; and
- projects in separate applications will not be conducted in the same physical location.

TDA will make the final decision for any service areas and/or locations determined to be substantially the same.

Examples:

- Reconstruction of a library that serves all county residents, including residents of incorporated cities (Cities of A, B, and C) within the county. The library shall be located in City B.
 - The county has jurisdiction over all county residents and may apply without establishing the cities as partners, OR
 - Since the project is located in City B, the city has jurisdiction over the project may apply after establishing the County as a partnering jurisdiction. The County may then submit a separate unrelated application.
- Water improvement project that will serve residents of both County A and County B.
 - Either county may apply, but must establish the other county as a partnering jurisdiction.
 - The county not submitting the application may apply for a separate unrelated project.
- Improvements to a Wastewater Treatment Plant that serves residents of City A and its ETJ.
 - Either the City or the County may apply for funding, as both have jurisdiction over the service area and beneficiaries.
- Improvements to a Water Treatment Plant that serves residents of City A and its ETJ – improvements to the main pump station are submitted by City A, while County B requests funding to replace the clarifier.
 - Even though the plant may require extensive investment and there are two viable applicants, only one application will be accepted to improve the plant or provide other system-wide benefits. If both are

submitted, TDA will require the two entities to choose which application to withdraw prior to scoring being completed.

- Water improvements for a Water District – City A requests line replacement within the city limits, while the County will construct a new water well to serve the entire district.
 - TDA must evaluate the target areas for substantial overlap. If determined to not serve substantially the same target area, both applications may be submitted without requiring a partnering jurisdiction.

Other Program Policies

Conflict of Interest

Applicants to the TxCDBG Program must avoid, neutralize or mitigate actual or potential conflicts of interest so as to prevent an unfair competitive advantage or the existence of conflicting roles that might impair the performance of the TxCDBG contract or impact the integrity of the procurement process.

For the procurement of goods and services, no employee, officer, or agent of the Grant Recipient

or subrecipient may participate in the selection, award, or administration of a contract supported by a Federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. (24 CFR 570.489(g), Uniform Grant Management Standards (UGMS) of the Texas Comptroller of Public Accounts, 2 CFR 200.318(c)(1)).

For all other cases other than the procurement of goods and services, non-procurement conflict of interest provisions are applicable to any person or entity including any benefitting business, utility provider, or other third party entity that is receiving assistance, directly or indirectly, under a TxCDBG contract or award, or that is required to complete some or all work under the TxCDBG contract in order to meet a National Program Objective, that might potentially receive benefits from TxCDBG awards.

Under these provisions, a conflict of interest would exist if an employee, elected official, or their family members receive benefit from an activity. For example, if a member of a mayor's family was selected to receive CDBG assistance or would benefit from or receive a CDBG award, abstention from voting does not clear the conflict of interest. Another example where a conflict of interest would exist (business ties) is a situation where a consultant, who is employed by an engineering firm, has been selected by a city to provide administration services for the TxCDBG contract and the city is considering the selection of an engineer from that same firm to provide engineering services for the TxCDBG contract.

TDA may grant an exception, upon written request from the Grant Recipient, to the non-procurement conflict of interest provisions on a case-by-case basis if TDA determines that such exception will serve to further the purpose of the TxCDBG project and the effective and efficient administration of the project. An exception may be considered only upon written request from the applicant that includes the following documentation:

- A disclosure of the nature of the conflict, accompanied by an assurance that there has been public disclosure of the conflict and a description of how the public disclosure was made.
- An opinion of the attorney for the applicant that the interest for which the exception is sought would not violate state or local law.
- Where the exception would provide a significant cost benefit or an essential degree of expertise to the project that would not be available otherwise.
- Whether an opportunity was provided for open competitive bidding or negotiation.
- Whether the person affected is a member of a group or class of low or moderate income persons intended to be the beneficiaries of the assisted activity, and the exception would permit such person to receive generally the same interests or benefits as are being made available or provided to the group or class.

- Whether the person affected has withdrawn from their functions or responsibilities, or the decision making process with respect to the specific assisted activity in question.
- Whether the interest or benefit was present before the affected person was in the position as an employee, agent, consultant, officer, or elected official of the governing body, or of any designated public agencies, or sub-recipients that are receiving CDBG funds.
- Whether undue hardship will result to the city or persons affected when weighed against the public interest served by avoiding the prohibited conflict.
- Any other relevant considerations.

Local Certifications

Each applicant for TxCDBG funding must certify by signing the 424 Form that it has adhered to the Local Certifications included in this application guide in the preparation of any TxCDBG application. Adherence to these certifications must be ongoing in the event that the application is successful.

With respect to the expenditure of funds provided under a Texas Community Development Block Grant contract, each TxCDBG contractor is required to certify that:

1. It will minimize displacement of persons as a result of activities assisted with such funds.
2. The program will be conducted and administered in conformity with Title VI of the Civil Rights Act of 1964 (42 USC 2000d et seq.) and the Fair Housing Act (42 USC 3601-20), and that it will affirmatively further fair housing, as specified by TDA.
3. It will provide opportunities for citizen participation, hearings and access to information with respect to its community development programs, and that it is following the TxCDBG Program Citizen Participation Plan.
4. It will not attempt to recover any capital costs of public improvements assisted in whole or in part with such funds by assessing any amount against properties owned and occupied by persons of low-to-moderate income, including any fee charged or assessment made as a condition of obtaining access to such public improvements unless: (A) such funds are used to pay the proportion of such fee or assessment related to the capital costs of such public improvements that are financed from revenue sources other than such funds; or (B) for purposes of assessing any amount against properties owned and occupied by persons of low-to-moderate income who are not persons of very low income, the contractor certifies that it lacks sufficient funds under this contract to comply with the requirements of clause (A).
5. It will comply with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended, and Federal implementing regulations at 49 CFR Part 24, and the requirements of section 570.606 including the following of a residential anti-displacement and relocation assistance plan, as specified by TDA, in the event that displacement of residential dwellings will occur in connection with a project assisted with TxCDBG funds.
6. It has adopted or will adopt and enforce a policy prohibiting the use of excessive force by law enforcement agencies within its jurisdiction against any individuals engaged in nonviolent civil rights demonstrations and enforce applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of such nonviolent civil rights demonstrations within its jurisdiction.
7. To the best of the TxCDBG contractors' knowledge and belief, no Federal appropriated funds have been paid or will be paid, by or on behalf of the TxCDBG Contractor, to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
8. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the TxCDBG Contractor shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.

9. The TxCDBG contractor must require that the language of this certification be included in the award documents for all sub-awards at all levels (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and that all sub-recipients shall certify and disclose accordingly.

False Information on Applications

The following actions may be taken, on a case-by-case basis, where TDA finds that an applicant provided false information in its application for TxCDBG funding.

If the applicant provides false information in a TxCDBG Fund application that has the effect of increasing the applicant's competitive advantage, or false beneficiary information that increases the number or percentage of potential beneficiaries, TDA TxCDBG staff shall make a recommendation for action to the Director of the State TxCDBG Program.

Actions that the Director may make include, but are not limited to:

1. Disqualification of the application and holding the locality ineligible to apply for TxCDBG funding for a period of at least one year not to exceed two program years.
2. Even if an award has been made, the locality may be liable for funds expended if adjustment to the scores would have resulted in a change in rankings for the purpose of funding.
3. Holding the locality ineligible to apply for TxCDBG funding for a period of two program years or until any issue of restitution is resolved, whichever is longer.

An applicant may appeal a decision of the State TxCDBG Director by filing an appeal with the Director of the Office of Rural Affairs.

Appeals Process

Refer to Title 4, Part 1, Chapter 30, Subchapter A, Division 2, §30.6 of the Texas Administrative Code (TAC).

Part III: General CDBG Federal Requirements

Eligible Applicants

Eligible applicants are non-entitlement units of general local government, incorporated cities and counties not participating or designated as eligible to participate in the entitlement portion of the federal Community Development Block Grant Program. Non-entitlement cities that are not participating in urban county programs through existing participation agreements are eligible applicants unless the city's population counts toward the urban county CDBG allocation.

Non-entitlement cities are located predominately in rural areas and are generally:

- cities with populations of less than 50,000 persons;
- cities that are not designated as a central city of a metropolitan statistical area; or
- cities that are not participating in urban county programs.

Non-entitlement counties are also predominately rural in nature and generally have fewer than 200,000 persons in the non-entitlement cities and unincorporated areas located in the county.

While non-entitlement units of general local government are the only eligible applicants for TxCDBG funding, these applicants may submit applications that will provide benefits through other sub-recipient groups serving the jurisdiction.

Ineligible Activities

In general, any type of activity not described or referred to in Section 105(a) of the HCDA, as amended, is ineligible for TxCDBG funding. Specific ineligible activities under the TxCDBG Program include:

- Construction of buildings and facilities used for the general conduct of government (e.g., city halls and courthouses). The only exception is for improvements made to these buildings solely to provide complete access for elderly persons and persons with severe disabilities;
- Financing of political activities;
- Purchase of construction equipment;
- Income payments, such as housing allowances;
- Activities in a floodway may be ineligible; see Implementation Manual, Chapter 3 for specific guidance;
- New housing construction; and
- Operation and maintenance expenses of public facilities, improvements and services

Various methods used to identify specific sections of wastewater line that require maintenance to reduce or eliminate the amount of inflow or infiltration routed to the treatment facilities, such as smoke testing, televising (TV'ing), and line cleaning (vacuuming, jetting, etc.), are considered maintenance tools. The process of identifying target areas for wastewater line replacement must be completed prior to the submission of an application in order for the scope of the project to be fully identified and to expedite construction completion. Similar methods may also be used as a part of construction and inspection of the new lines. Maintenance tools will not be accepted as a CDBG eligible activity in an application and such costs will be eliminated from the application. Sludge removal from a wastewater facility may be considered eligible if additional documentation is provided in the application to indicate why it is not operation and maintenance.

Citizen Participation Plan Requirements

Each applicant must complete a citizen participation process that complies with the TxCDBG Citizen Participation Plan requirements as described in this guide prior to submitting an application. **Before beginning any work that will be eligible for TxCDBG funding, the community must complete a public hearing.**

A locality can only receive a TxCDBG grant if the locality certifies that it follows a detailed citizen participation plan that

provides for and encourages citizen participation at all stages of the community development program.

TxCDBG applicants and funded localities are required to carry out citizen participation in accordance with the Citizen Participation Plan adopted for the TxCDBG Program. Each applicant certifies by signing a 424 Form that it has and will comply with the requirements of this Citizen Participation Plan.

Each applicant must maintain a citizen participation file that includes a copy of this Plan, the applicant's complaint procedures, any technical assistance provided by the applicant, and public notices, minutes, and attendance lists for public hearings.

Complaint Procedures:

The applicant/recipient must have written citizen complaint procedures that provide a timely written response to complaints and grievances. Citizens must be made aware of the location, days, and hours when copies of the plan are available.

Technical Assistance:

When requested, the applicant/recipient shall provide technical assistance to groups representative of persons of low-to-moderate income in developing proposals for the use of TxCDBG funds. The level and type of assistance shall be determined by the applicant/recipient based upon the specific needs of the community's residents.

Public Hearing Provisions:

The applicant must provide citizens with reasonable advance notice and opportunity to comment on eligible and proposed activities in the SUN application.

For public hearings scheduled and conducted by a TxCDBG applicant or recipient, the following public hearing provisions must be observed:

1. Public notice of the hearings must be given in one of the following ways:
 - a. Public notice of the hearings must be published in a local newspaper at least seventy-two (72) hours prior to the scheduled hearing; or
 - b. Published on applicant's website AND posted in public places (e.g. city hall/county courthouse) at least seventy-two (72) hours prior to the scheduled hearing.

The public notice must include the date, time, location and topics to be considered at the public hearing. A published newspaper article may also be used to meet this requirement so long as it meets all content and timing requirements. Notices should also be prominently posted in public buildings and distributed to local Public Housing Authorities and other interested community groups.

2. The public hearing must be held at a time and location convenient to potential or actual beneficiaries and include accommodations for persons with disabilities. Furthermore, the applicant must make arrangements for individuals who require auxiliary aids or services if contacted at least two days prior to each hearing. The public hearing must no earlier than 5:00 p.m. on a weekday or at a convenient time on a Saturday or Sunday.
3. When a significant number of non-English speaking residents are expected to participate in a public hearing, an interpreter must be present to accommodate the needs of the non-English speaking residents.

Applicants must comply with the following citizen participation requirements for the preparation and submission of an application to the Texas Community Development Block Grant Program:

1. The public hearing must occur **prior** to the adoption of the local government resolution authorizing the submission of the application.

2. The locality must retain documentation of the hearing notice(s), attendance lists, minutes of the hearing(s), and any other records concerning the proposed use of funds for a period of one year. Such records must be available to the public in accordance with Chapter 552, Government Code.
3. The public hearing must meet the following TxCDBG notification requirements and include a discussion with citizens covering the following topics:
 - The development of housing and community development needs.
 - The amount of funding available.
 - All eligible activities under the Texas Community Development Block Grant Program.
 - The applicant's use of past TxCDBG contract funds, if applicable.
 - The estimated amount of funds proposed for activities that will meet the national objective of benefit to low-to-moderate income persons.
 - The plans of the locality to minimize displacement of persons and to assist persons actually displaced as a result of activities assisted with TxCDBG funds, if applicable.

Citizens must be encouraged to submit their views and proposals regarding community development and housing needs, with particular emphasis on persons of low-to-moderate income who are residents of slum or blighted areas. Local organizations that provide services or housing for low-to-moderate income persons, including the local Public Housing Authority, the local Health and Human Services office, the local Mental Health and Mental Retardation office, and other local service providers such as Faith-Based organizations, must receive written notification concerning the date, time, location and topics to be covered at the public hearing. Citizens must be made aware of the location where they may submit their views and proposals in case they are unable to attend the public hearing. While more than one application may be discussed at the public hearing, a hearing held for the previous program year's submission of the same application does not satisfy the requirements for any subsequent competition.

A community must provide reasonable notice of the availability of a proposed application in order to afford affected citizens an opportunity to examine the application's contents to determine the degree to which they may be affected, and to submit comments on the proposed application. This requirement may be met by publishing a summary of the proposed application in one or more local newspapers of general circulation at least five (5) days prior to submitting the application to TDA, and by making copies of the proposed application available at libraries, government offices, and public places.

At least five (5) days prior to the submission of an application for TxCDBG funds, the applicant must publish a public notice in a local newspaper that includes the following information:

- The TxCDBG fund categories for which applications will be submitted.
- The amount of TxCDBG funds requested in each application.
- A short description of the proposed project activities in each application.
- The locations of the project activities included in each application.
- The location and hours when the application will be available for public review.

Public notice must be given in one of the following ways:

- a. Published in a local newspaper at least five (5) days prior to application submittal; or
- b. Published on the applicant's website AND posted in public places (e.g. city hall/county courthouse) at least five (5) days prior to application submittal.

In the preparation of the final application, the community shall consider comments and views received related to the proposed application and may, if appropriate, modify the final application prior to submission of the application to TDA. The final application shall be made available to the public.

Applicants must comply with the following citizen participation requirements in the event that the application is successful:

- The locality must hold a public hearing concerning any proposed substantial change, as determined by TDA, in the use of TxCDBG funds from one eligible activity to another.

- Upon completion of the activities, the locality shall hold a public hearing and review its program performance, including the actual use of TxCDBG funds.
- The locality must retain documentation of the hearing notice(s), attendance lists, minutes of the hearing(s), and any other records concerning the actual use of funds for the greater of:
 1. Three years after close-out of HUD's grant to the State of Texas (please see TDA website)
 2. If notified by TDA in writing, the date that the final audit is accepted with all audit issues resolved to TDA's satisfaction (Please see date of TDA audit acceptance letter if applicable); or
 3. A date consistent with the period required by other applicable laws and regulations as described in 24 CFR 570.490 and 570.502.

The applicant certifies compliance with the TxCDBG Citizen Participation Plan requirements by signing the 424 form. Failure to comply with these requirements may result in disqualification of the application.

Environmental Review Requirements

Eligible activities must be able to satisfy the environmental review requirements.

- Projects that meet the requirements for an "exempt" level of environmental review (per 24 CFR 58.34) must still receive an abbreviated environmental review and clearance. Exempt activities are listed under §58.34(a) and include:
 - Administrative and management activities;
 - Engineering or design costs;
 - Assistance for permanent improvements that do not alter environmental conditions and are limited to protection, repair, or restoration activities necessary only to control or arrest the effects from disasters or imminent threats to public safety including those resulting from physical deterioration. Requests for this category of exempt review activities must include documentation of the imminent threat to public safety, and may **not** be used for:
 - projects that are located in a known critical habitat for endangered species, an historic property, or a known hazardous site;
 - projects that alter a building's footprint, enlarge or relocate a facility, or change the use of a facility; or
 - projects that include improvements to structures which are located in a floodplain. The term "structures" does not include roads or underground utilities.

Projects that will be reviewed under Categorically Excluded Subject to 58.5 or Environmental Assessment requirements must **not** begin any work or obligate funds for the project prior to receiving environmental clearance through TDA.

Minority Participation/Local Opportunity

The TxCDBG program encourages localities to affirmatively take action to utilize small, minority (MBE) and women-owned (WBE) businesses whenever possible. Although funded localities are not directly responsible for meeting a specific minority business participation goal, TxCDBG reports to HUD on the levels of MBE and WBE hiring under all CDBG contracts. To increase participation of small, minority and women owned-businesses, localities may use the Texas Comptroller of Public Accounts Historically Underutilized Business (HUB) Directory. Also in accordance with Section 3 of the Housing and Urban Development Act of 1968, successful applicants using CDBG funding for housing or other public construction are required, to the greatest extent feasible, to provide training and employment opportunities to lower-income residents and contract opportunities to businesses in the project area.

Fair Housing Activities

Any locality receiving funds under the TxCDBG Program must certify that it will affirmatively further fair housing choice. Each funded locality must conduct at least one fair housing activity during the contract period, even if the locality is currently undertaking fair housing activities. Activities that qualify as affirmatively furthering fair housing include, but are not limited to, the following:

- Cities may pass a fair housing ordinance and publicize the existence of such an ordinance.
- Counties may adopt written fair housing policies and procedures that are equivalent to a fair housing ordinance and publicize the existence of such policies.
- The development of a strategy to pass a fair housing ordinance to be evidenced by public hearings and input from interested parties.
- The establishment of a written local complaint and monitoring process and notification to the public of its existence.
- The initiation of a fair housing counseling referral service that provides housing choices outside historically minority and/or low-to-moderate income neighborhoods to be evidenced by adoption of written procedures and publication of the availability of such service.
- The completion of a community-wide housing analysis to determine impediments to fair housing and actions to eliminate these impediments.
- The designation of April, or some other month, as Fair Housing Month through resolution or proclamation along with other activities to support fair housing.

In addition, communities that receive CDBG funds, chief elected officials, and third-party consultants will be required to have Fair Housing training. Training will be offered at both on-site workshops and state-wide webinars.

Federal Funding Accountability and Transparency Act (FFATA)

In September 2006 the President signed the Federal Funding Accountability and Transparency Act (FFATA) requiring the Office of Management and Budget (OMB) to develop a publicly available, free-of-charge, searchable website on federal funding. Federal funding includes grants, sub-grants, loans, awards, cooperative agreements, and other forms of financial assistance. On April 6, 2010, the OMB issued a memorandum outlining responsibilities for State agencies making sub-awards with Federal funds.

Beginning October 1, 2010, TDA is responsible for reporting data on each TxCDBG award, which will be entered into the usaspending.gov database. This data includes:

- The name of the entity receiving the award;
- The amount of the award;
- Information on the award, including transaction type, funding agency, Catalog of Federal Domestic Assistance (CFDA) number, program source, and a descriptive award title;
- Location of the entity receiving the award and the primary location of performance under the award, including the city, state, congressional district, and county; and
- The Data Universal Numbering System (DUNS) number for the entity receiving the award.

Additional information deemed relevant by the OMB must also be provided, and all information is due no more than thirty days after a grant is awarded.

Application Instructions

Cover Sheet

Enter the applicant's name in the space provided. The applicant's name will then appear in the footer of every page in the application. Using the drop-down box, select the applicant's County. Region-specific information such as COG region and County Code will automatically appear where appropriate throughout the application once the County has been selected.

Application Checklist

Carefully read the list of required attachments and application forms located in this guide, checking off each completed item. This minimizes the likelihood of serious deficiencies or disqualification.

424 Form

The numbered sections below coincide with the numbered fields on the 424 Form. All information is required unless otherwise noted. The applicant must provide an email address and the information can be entered under the address box of the bottom of the 424 Form in box 18a.

1. **Type of Submission**- Under the Application column, select either Construction or Non-Construction. The majority of TxCDBG applications, except for Planning-only applications, include some construction activities.
2. **Date Submitted**- To use the calendar provided, click on the drop-down arrow on the right side of the box.
3. **Date Received by State** – Leave this field blank.
4. **Date Received by Federal Agency** – Leave this field blank.
5. **Applicant Information**- Provide the applicant's Legal Name (e.g., City of ABC, ABC County) and the Organizational Unit (can be the same as the Legal Name). **Mailing address, telephone number, fax number, and email address are required for both the applicant and the application preparer.** The applicant's physical address and county are also required.
6. **Employer Identification Number**- Also known as the Federal Tax ID, this 14-digit number is required to facilitate disbursement of funds.
- 6a. **DUNS Number** – All applicants must have a Data Universal Numbering System number to apply for Federal funds. The DUNS number is a nine-character identification number provided by Dun and Bradstreet. There is no charge to obtain a DUNS number. For additional information, visit the Dun and Bradstreet website at www.dnb.com. Failure to provide the applicant's DUNS number at the application stage may result in delayed award disbursement. The DUNS number is also required to be registered with the System for Award Management.
7. **Type of Applicant**- Select County or City.
8. **Type of Application**- Check the appropriate box.
9. **Name of Federal/State Agency** – Provided by TDA
10. **Catalog of Federal Domestic Assistance Number** – Provided by TDA
11. **Project Type** – Use the drop-down menu to select the project type that best describes the proposed project. Please double check for accuracy, as TDA will use this information for creation of an Action Item and contracts if the application is successful. If the options in the drop-down menu do not accurately describe the proposed project, you may type the appropriate project type in this field rather than selecting from those provided.
- 11a. **Type of Application** – Provided by TDA
12. **Target Area(s) Affected by the Project**- Briefly identify the target areas of the city or county affected by the project. Acceptable descriptions would be: "The ABC Community in southeast XYZ County", "The ABC Community and LMN Community in XYZ County", "The ABC Water Supply Corporation Service Area", "The A, B, C, and D Colonias of XYZ County", and "Jollyville neighborhood in the northwest portion of ABC

Town”.

13. ***Applicant’s Fiscal Year*** – Indicate the beginning and end dates of the applicant's fiscal year.
14. ***Congressional Districts***– Provide the congressional districts of the entity applying for funding, as well as for the proposed project site(s). This information is available through the “Who Represents Me” feature at the Texas State Legislature’s web site: www.fyi.legis.state.tx.us.
15. ***Estimated Funding***– Complete each field as follows:
 - A. TxCDBG Request: Amount requested from TDA through this application;
 - B. Federal: Amount committed from federal resources such as RUS or USDA-RD;
 - C. State: Amount committed from state resources such as TWDB;
 - D. Applicant: Amount of match committed by the applicant;
 - E. Local: Amount committed from local resources such as a WSC, WCID, MUD, or any other local entity other than the applicant;
 - F. Other: Amount committed from resources other than those listed above; and
 - G. Total: This will calculate automatically.

If the applicant intends to use TxCDBG funds to leverage funds from another source, indicate the full scope of the project (including portions funded by other sources) in the Project Summary.

16. ***Is application subject to review by State Executive Order 12372 Process?*** – For TxCDBG applications, the answer to this question is “No.” Texas Review and Comment System (TRACS) no longer exists for review.
17. ***Is the Applicant delinquent on any Federal debt?***– If the answer is “Yes,” include an explanation concerning the nature, amount, and date when payment of the debt became delinquent.
18. ***Certification***– Before signing the 424 Form, the authorized signatory should read the text in this field carefully and review the Local Certifications and Citizen Participation Plan sections of this guide. Complete all sub-fields prior to signature.

Project Approval Information

This form asks for a variety of information about a proposed project. Please be sure to verify your responses, as TDA staff may rely on this information to make important decisions regarding the project’s approval status. Some items on this form include follow-up questions that will only appear if necessary. If a question does not apply to the proposed project, select “N/A”. Failure to respond to any item on the Project Approval Information form will result in a deficiency notice.

Community Needs Information

List of All Identified Community Needs

Provide a list of all the applicant’s identified community development and housing needs, not just those addressed in the application. List the needs in order of importance, using the boxes marked “+” and “x” to add or delete space for additional items.

Community Needs Assessment Questionnaire

Provide the information requested for each item, including information concerning the applicant’s past and future efforts to provide affordable housing opportunities in the applicant’s jurisdiction and the applicant’s past efforts to provide infrastructure improvements through the issuance of general obligation or revenue bonds. A response is required for each item; “None” and “N/A” are acceptable.

Fair Housing Activities

Any locality receiving TxCDBG monies must certify that it will affirmatively further fair housing. Using the drop-down box, identify the activities presently undertaken to affirmatively further fair housing and which new activities will be undertaken if an award is made by TDA. Applicants should be aware that, in the event of funding, these fair housing

efforts will be monitored. Other activities may be eligible, and the applicant should contact TDA to determine eligibility.

The Needs Addressed In This Application Were Determined By

Indicate the method(s) used to determine the needs addressed in this application, including the date(s) of each method/assessment. If the exact date is not known, choose the first day of the appropriate month and year. If a city's application includes activities benefiting persons located within the city's ETJ, the applicant must describe how the activity benefiting persons located in the ETJ is meeting the applicant's community development and housing needs, including the needs of low to moderate income persons.

Description of the Need(s) Addressed in This Application

Provide a description of the problem the proposed project will address. TDA will use the information from this section to draft a contract in the event that the application is successful. Please double-check for accuracy and do not use all capital letters.

Example: The Green Creek Water Supply Corporation's water system in the northern portion of the City of Green Creek does not meet the Texas Commission on Environmental Quality (TCEQ) regulations 290.44(D) as required by law. This system is unable to meet the TCEQ volume and water pressure requirements.

Project Summary

This section is to be answered for each target area identified within the application and it consists of four questions intended to summarize the most basic aspects of the proposed project(s) (use the clearly marked buttons at the top of the page to add or delete additional forms for multiple target areas). Responses will be used to draft a contract if the application is awarded. Ensure the information provided in this section is accurate and in agreement with all other parts of the application. To answer the questions on this form, follow the instructions below:

1. "Summarize the problem(s) to be addressed within the application by target area."

Guidance: state the nature of the problem by expanding on the Description of Needs from the previous section, as well as specific locations and the state of existing facilities.

EXAMPLE- The existing six-inch (6") asbestos cement water line is old and deteriorated which results in frequent breaks and water loss making the water line unreliable. This water line is the only source of water serving the city north of State Highway 88 and does not provide adequate capacity.

2. "Identify the location of each activity/target area and any acquisition activity."

Guidance: first, enter the name of the project area and then identify from the dropdown menu the activity that is to occur in that target area. Lastly, identify the location of the activity/project using cross streets, **or** provide a brief description/narrative of the location of the activity/target area. Use the "+" box on the right side of the page for additional lines to provide street locations, if necessary (or the "x" box to delete unnecessary ones). **NOTE:** when entering the name of the project area, ensure exact consistency in the naming of the project area **throughout** the application (spelling and capitalization, etc.). For example, "Green Acres" should not appear as "green acres subdivision" elsewhere.

"Has acquisition of the project site(s) been completed, in progress or to be acquired?"

Guidance: acquisition of any real property associated with a TxCDBG funded project must follow the requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act) and the HUD implementing regulations, regardless of whether the acquisition is funded by private funds or funds from another state or federal agency. In addition, an environmental review must be completed on any applicable property prior to completing acquisition for any real property associated with a TxCDBG funded project. Contact TDA for additional information on the Uniform Act or environmental review requirements.

3. "Identify the action(s) to resolve the problem(s) and their anticipated outcomes. Include specific materials and quantities, as well as any anticipated Acquisition. Provide the proposed description based on the example below and examples in the Application Guide."

Guidance: describe what action is required to address the problem, including the type and amount of material required for construction activities. For projects that will take place in more than one target area, be sure to describe the conditions and proposed work at each site. Describe in detail acquisition needed for the activity. The response should resemble a standard TxCDBG Performance Statement (see Appendix V: Form/Document Samples for an example).

EXAMPLE- Contractor shall provide first-time sewer service connections to 25 households in the Addison Neighborhood in the southwest portion of the city. Construction shall include the installation of yard lines, tap fees and decommission of existing septic tanks.

4. “Disclose the source(s) and use(s) of non-TxCDBG funds.”

Guidance: Disclose the source, use and amount of any non-TxCDBG funds committed to the proposed project. This includes all cash, material, land, and in-kind match.

Provisions at Subpart A of 24 CFR Part 4 require TxCDBG applicants to disclose the information requested in each part of this section:

- Assistance from other government sources in connection with the TxCDBG project;
- The sources of funds contributed to the project; and
- The uses for which the funds are to be utilized.

Each reportable source of funds must indicate:

- The name and address, city, state, and zip code of the individual or entity providing the assistance. If applicable, include at least one organizational level below the agency name. For example, U.S. Department of Transportation, U.S. Coast Guard; Department of Safety, Highway Patrol;
- the program name, and any relevant identifying numbers or other means of identification for the assistance; and
- the type of assistance (e.g., applicant contribution, loan, grant, loan insurance).

TDA will make all applicant disclosure reports available to the public for five years in the case of applications for competitive assistance, and for generally three years in the case of other applications. Update reports will be available along with the disclosure reports, but in no case for a period less than three years. All reports, both initial reports and update reports, will be made available in accordance with the Texas Public Information Act (Chapter 552, Texas Government Code). Failure to provide any required information may delay the processing of the application and may result in sanctions and penalties, including imposition of the administrative and civil penalties specified under 24 CFR Section 4.38.

Additional Project Information

Answer the two questions on this page to identify: 1) any persons with a reportable financial interest to disclose; and 2) any construction, engineering and/or administrative activities to be completed by Force Account as grant and/or match.

Applicants must provide information on anyone with financial interest in the proposed project exceeding \$50,000 or 10 percent of the requested amount (whichever is lower). This includes developers, contractors, or consultants involved in the application for TxCDBG assistance or in the planning, development, or implementation of the project or activity. A “financial interest” is any financial involvement in the project or activity, including (but not limited to) situations in which an individual or entity has an equity interest in the project or activity, shares in any profit on resale or any distribution of surplus cash or other assets of the project or activity, or receives compensation for any goods or services provided in connection with the project or activity. Residence in housing for which assistance is sought is not considered a covered financial interest.

The applicant disclosure report must specify all expected sources of funds from TxCDBG and from any other source that is or will be available for the proposed project or activity. Non-TxCDBG sources typically include the applicant's local contribution, other government assistance referred, equity, and contributions from foundations and private individuals. The report must also specify all expected use(s) of the funds. All sources and uses of funds must

be included if they can be reasonably expected to be available for the proposed project.

Additional disclosures apply to update reports. During the period in which a TxCDBG application is pending, the applicant must make the following additional disclosures:

1. Any information that should have been disclosed in connection with the application but was inadvertently omitted.
2. Any information that would have been subject to disclosure in connection with the application but that arose at a later time, including information concerning an interested party that now meets the applicable disclosure threshold.
3. Any changes in previously disclosed Other Government Assistance that exceeds the previously disclosed amount.
4. For changes in previously disclosed financial interests, any change in the amount of the financial interest of a person that exceeds the amount of the previously disclosed interests by \$50,000 or by 10 percent of such interests (whichever is lower).
5. For changes to previously disclosed sources of funds, any change in a source of funds that exceeds the lower of:
 - a. The amount previously disclosed for that source of funds by \$250,000 or by 10 percent of the amount previously disclosed for that source, whichever is lower; or
 - b. The amount previously disclosed for all sources of funds by \$250,000 or by 10 percent of the amount previously disclosed for all sources of funds, whichever is lower.
6. For changes to previously disclosed uses of funds, any change in a use of funds that exceeds the lower of:
 - a. The amount previously disclosed for that use of funds by \$250,000 or by 10 percent of the amount previously disclosed for that use, whichever is lower; or
 - b. The amount previously disclosed for all uses of funds by \$250,000 or by 10 percent of the amount previously disclosed for all uses of funds, whichever is lower.

For Questions 2 and 3, click on the appropriate response and provide a response if prompted.

Per the Action Plan, applicants must demonstrate they are adequately addressing water supply and water conservation issues, in particular contingency plans to address drought-related water supply issues. Applicants requesting funds for projects other than water and sewer must include a description of how the applicant's water and sewer needs would be met and the source of funding that would be used to meet these needs.

Table 1 – Beneficiary Data

Provide the following information for each proposed activity. For activities that share the same location, beneficiaries, and National Program Objective, use the "+" box on the right side of the page to add activity line items (or the "x" box to delete an unnecessary line item). Data for activities in a different location, serving different beneficiaries, or addressing a different NPO must appear on a separate Table 1 form. To add a new Table 1 form, click the "Add Another Table 1" button at the top of the page, or click "Remove this Table 1" to remove an unnecessary page. Refer to Appendix III: Sample Table 1 & Table 2 for an example of a properly completed Table 1 form.

Enter the following information for each target area:

- Target Area Name – enter the name of the applicable target area. **NOTE:** when entering the name of the project area, ensure exact consistency in the naming of the project area **throughout** the application (spelling and capitalization, etc.). For example, "Green Acres" should not appear as "green acres subdivision" elsewhere.
- Construction Completion Method(s) – identify how each proposed activity will be accomplished:
 - select "contract" for activities that will be accomplished by the bid/contract process.
 - select "force account" for force account labor (performed by the applicant's own employees); or
 - select "combination" for a combination of both (Contract) and (Force Account);
- Activity Description – choose the appropriate activity from the dropdown menu. After selecting an activity, the appropriate HUD activity number will appear in the next field. Refer to Appendix IV: TxCDBG Activity Code

Reference Table for a brief description of each activity and its corresponding activity code. Most projects involve at least three activities, and at least one construction item and General Administration are mandatory. For most public works/facilities projects, engineering/architectural services should be included even if not paid with TxCDBG funds.

- When completing the form for the General Administration activity, the Gender, Ethnicity, and Census Geographic Area information is not required. For the General Administration line item, use the TxCDBG Construction and/or Other Construction columns to indicate the portions of the Administration costs to be paid by TxCDBG funds and/or Other funds respectively. Engineering and acquisition costs are not applicable to General Administration and should be left blank for both TxCDBG and Other funds. In some cases, more than three activities apply even if the application is for a single purpose. One example is housing projects that include rehabilitation, clearance, and relocation activities.
- Total Benes (Total Activity Beneficiaries) – enter the total number of beneficiaries of the activity. For projects with multiple activities, each separate activity requires a separate beneficiary count. Once this information is entered for all activities (if applicable), enter the sum total of all the beneficiaries at the bottom of the column. This is true when activities take place in different sectors of a jurisdiction, but may also be true when the activities are proposed in the same general vicinity.
 - For example, if a proposed project includes street paving and sewer line improvements in the same part of a community, a survey conducted for the project should produce a separate sub-tabulation for each activity. If the activity locations overlap completely and serve the same population, the beneficiary totals will be identical. If the activity locations overlap partially or not at all, the totals will differ because each activity serves a different population.
- LMI Benes (Activity LMI Beneficiaries) – enter the number of persons identified out of the Total Beneficiaries whose income falls below 80% of the area median family income. Once this information is entered for all activities, enter the sum total of all the LMI beneficiaries at the bottom of the column.
- LMI % (Activity LMI %) – this is the percentage of an activity’s beneficiaries that are LMI, and will automatically calculate. For projects addressing the low-to-moderate income NPO, the TxCDBG program requires that this amount be at least 51% for each construction activity.
- TxCDBG Construction – indicate the amount of TxCDBG funds requested for each construction activity. Be sure to correlate this figure for all construction activities on Table 2 – Budget Justification.
 - Use this column for General Administration (choose General Administration as the activity and then budget the amount in the TxCDBG Construction column). The amount requested for General Administration must not exceed 16% of the combined TxCDBG amounts requested for construction and acquisition/relocation activities. The locality is responsible for any cost incurred for General Administration (Program Administration, Compliance, Audit, etc.) that exceeds the TxCDBG-funded amount
- TxCDBG Engineering – indicate the amount of TxCDBG funds requested to pay engineering costs associated with the activity. This amount should also appear on Table 2 – Budget Justification. When TxCDBG Engineering costs exceed 25% of the TxCDBG Construction/Acquisition budget, the cost is considered unreasonable and an explanation of high costs will be required.
- TxCDBG Acquisition – indicate the amount of TxCDBG funds requested to pay acquisition costs associated with the activity. This amount should also appear on Table 2 – Budget Justification.
- Other Construction – indicate the amount of local or other matching funds committed to pay for the construction costs associated with the activity.
- Other Engineering – indicate the amount of local or other matching funds committed to pay for the engineering costs associated with the activity.
- Other Acquisition – indicate the amount of local or other matching funds committed to pay the acquisition costs associated with the activity.

- The source(s) of all other funds must be disclosed in the Project Summary section of the application when the “other” amount is greater than zero. TDA requires a commitment documenting each outside source of funding. Refer to Appendix II: Matching Funds for additional details.
- Activity Total – this is the total cost of completing each activity, including funds from TxCDBG and all other sources, and will automatically calculate. The total for all activities should match the total project cost on the 424 form.
- Gender Data – enter in the total number of male and female beneficiaries that will be served in the target area. The number in the Total Benes column (Gender Data) should match the Total Beneficiary – Activity Totals column in the section above.
- Race/Ethnicity Data – provide the race, and ethnicity data of the beneficiaries that will be served in the target area. This data is available for census geographic areas in the TXMA05 file located on the agency website. According to a requirement promulgated by the Office of Management and Budget (OMB) and the Department of Housing and Urban Development (HUD), beneficiaries for the Community Development Block Grant Program (CDBG) must now consider persons of Hispanic or Latino origin as an ethnic group. Therefore, persons of Hispanic or Latino origin must also be included under one or more of the single race or multi-race categories. The number of persons shown in the single race or multi-race categories, not including the persons shown as Hispanic or Latino origin, should equal the total number of project beneficiaries when added together. The number in the Total Activity Beneficiaries column must match the Activities column in the section above.
- Census Geographic Area Data – for reporting purposes, HUD requires that TDA collect information regarding the location of each project activity. The county code/FIPS (Federal Information Processing Standard) code will automatically populate when you choose the applicant’s county from the drop down menu on the cover page. Next, enter all of the applicable census tracts (6-digit) and block group where the activity’s beneficiaries reside.
- This Activity Benefits a Target Citywide/Countywide Benefit – identify whether the proposed activity will benefit an entire city or county.
- Beneficiary Identification Methods – indicate which of the two acceptable methods was used by selecting the appropriate box, and then provide the appropriate information that is requested under the selected identification method. The three acceptable ways to determine how many beneficiaries an activity will serve are the following
 - HUD Census-based Data; or
 - TxCDBG-approved Survey

Table 2 – Budget Justification of Retail Costs

For projects involving more than one activity, this form should reflect each separate activity and its applicable costs. Do not include cost categories such as contingency funds, profit, overhead, and bonding as separate costs. They should be built into the estimated construction costs. Costs related to housing rehabilitation activities, other than water or sewer connections on private property related to the installation of first-time water or sewer service, do not have to be reflected on this form.

Localities may not levy special assessments, fees or service connection/tap-on costs on low-to-moderate income persons to recover the TxCDBG-financed portion of a public improvement. However, they may do so to recover the portion financed with other funding sources provided TxCDBG funds pay these costs for the LMI beneficiaries.

Under certain conditions, TxCDBG funds may pay special assessments and fees for low-to-moderate income persons even if the public improvements are funded by another source. Payment of special assessments/fees constitutes TxCDBG assistance to the public improvement. Therefore, TxCDBG funds may pay for the assessments/fees on behalf of LMI persons provided that:

- the installation of the public improvements was carried out in compliance with requirements applicable to activities assisted under TxCDBG, including labor standards, environmental review requirements, and citizen participation;
- the installation of the public improvement meets a TxCDBG national program objective; and,

- TxCDBG funds do not pay for the assessment/fees on behalf of non low-to-moderate income persons.

Force account labor costs, whether to be paid with TxCDBG funds or included as local match, must be based on the estimated TxCDBG contract-related construction hours to be worked by force account workers and the hourly wages to be paid, not on labor costs estimated through the bid/contract method. These costs must be described in the Project Summary section of the application.

The value of materials/supplies to be provided by the applicant, and already owned by the applicant, must be based on the purchase price of the materials and supplies at the time of purchase and cannot be based on the current purchase price of such materials/supplies.

Equipment costs for equipment owned by the locality, whether to be paid with TxCDBG funds or included as local match, must be based on a use allowance (such as those used by FEMA) or depreciation (based on acquisition cost, and only if the equipment is not already fully depreciated). Calculate all costs based on hours the equipment is in use on the project.

Please enter the following:

- Activity Description – refer to the listed activities on Table 1. Activities shown on this form must correspond to those shown on Table 1. Use the dropdown menu for a full list of activity descriptions and their corresponding HUD activity numbers. Use the “+” box on the right side of the page for additional line items (or the “x” to remove unnecessary ones).
- Materials/Facilities/Services – in this column, list the materials/facilities/services associated with each activity.
- \$/Unit, Unit, and Quantity – for projects that will be completed using force account labor, use the materials/facilities/services column to calculate the value of the force account, such as the estimated contract-related construction hours multiplied by hourly wage rates with the total amount indicated in the Construction column, or attach a separate Force Account Schedule. See Appendix V: Form/Document Samples for an example of a properly completed Table 2 – Budget Justification for Retail Costs involving Force Account labor. There are two acceptable methods for determining actual construction costs:
 - Break down the construction costs into labor and materials components for each activity (use this method for activities involving force account labor); or
 - Use unit price (\$/Unit) and the number of units (Quantity) for each activity. The units used (e.g., linear feet (lf), square feet (sf), etc.) must be priced to include all proposed improvements related to and necessary for the major construction activity.
- Construction – enter the price of a material associated with a construction activity. This is the quantity in the “\$/Unit” column multiplied by the number in the “Qty” column.
- Acquisition – enter any cost involved with a proposed activity involving acquisition of real property (easements, rights-of-way, etc.). The projected acquisition costs must be broken out by the activity for which the acquisition is needed. Acquisition costs associated with construction activities, such as easements for a water system improvement project, should be shown in the “Acquisition” column. Please keep in mind that

TDA requires compliance with the Uniform Real Property Acquisition and Relocation Policies Act of 1970. **Do not add a separate Acquisition activity line item unless the project involves acquisition of real property, in which case the “Construction” column should be blank for the Acquisition activity.**

- Total – the totals for each line item and column will calculate automatically. Each activity cost and the associated total activity costs must be consistent with those shown on Table 1. General Administration and Engineering costs are not shown on Table 2.
- Signature of Registered Engineer/Architect Responsible For Budget Justification (and Seal) – for public facilities projects, a professional engineer or architect licensed to practice in the State of Texas must complete this form. The engineer or architect’s signature and registration seal must be on the form. Please also provide the date the form is completed and the engineer or architect’s telephone number. If the professional seal is a pressure (non-ink) seal, please ensure that a penciled-over image of the seal is visible on the duplicate copy.

National Program Objectives

Indicate which National Program Objective (NPO) the proposed project addresses. Additional data may be required depending on which NPO you select:

- Activities benefitting low-to-moderate income persons;
 - LMI Area Benefit;
 - LMI Housing Activity;
 - LMI Limited Clientele; or
 - LMI Jobs
- Prevention / Elimination of Slums or Blight; or
- **Urgent Need.**

Provide a Justification of Beneficiary Identification Method that was used to identify the beneficiaries of the proposed projects. Provide specific references to programs and income limits or the condition on which the limited clientele eligibility was based. The number of limited clientele beneficiaries must be substantiated through clientele lists or certified by the director of the facility or program. Additional questions will appear if the Prevention/Elimination of Slums or Blight NPO is selected:

- Area Basis / Spot Basis – by selecting the appropriate box, indicate if the proposed activity will address slums or blight on an area or a spot basis.
- Conditions – describe the conditions that are present in the area to designate and qualify the areas as a slum or blighted area.
- Boundaries – Describe the boundaries of the slum/blight area. Do not use this field to document the Census tract/block group data.
- Percentage Deteriorated Buildings/Qualified Properties – Enter the percentage of deteriorated buildings/properties in the area at the time it was designated a slum/blight area.
- Public Improvement/Type Condition – If the activity qualifies for CDBG assistance on the basis that public improvements throughout the area are in a general state of deterioration, enter a description of each type of improvement in the area and its condition at the time the area was designated as slum/blight.
- Slum/Blight Designation Year – Enter the year the area was designated as a slum/blight area. If the period during which such designations are valid has lapsed, the applicant entity must re-evaluate and re-designate the area.

NOTE: Funds to address the Urgent Need NPO are awarded separately on an invitation-only basis, (i.e., Governor's Disaster Proclamation or letter from the Governor's Authorized Representative (GAR). For more information regarding NPOs, refer to the National Program Objectives section of this guide.

Anticipated Objectives and Outcomes

Indicate the anticipated objectives and outcomes from the proposed activities by completing the following for each activity:

- Activity – using the dropdown menu, select the appropriate activity. If the options in the drop-down menu do not accurately describe the proposed activity, you may type the appropriate project type in this field rather than selecting from those provided from the drop-down list. Also, use the boxes marked “+” and “x” on the right side of the page to add or delete space for additional activities.
- Anticipated Objective – select one anticipated objective for each activity:
 - Create a suitable living environment.
 - Provide decent affordable housing
 - Create economic opportunities.
- Anticipated Outcome – select one outcome for each activity in the application (excluding engineering and administration):
 - Availability / Accessibility
 - Affordability
 - Sustainability

NOTE: Only one set of objectives and outcomes is required for each activity. If multiple objectives and outcomes are provided for each activity, the responses listed first for each activity will be used for reporting purposes by TxCDBG staff.

Anticipated Outcome Units

Of the following, select the box next to the most appropriate description of the proposed activities:

- Infrastructure/Public Facilities Improvement Project
- Services
- Planning Activity

Once the additional questions appear, select the Activity from the dropdown menu. Use the “+” box on the right side of the page to add additional activities, if applicable (or the “x” box to delete unnecessary ones). For each activity, provide the following:

- Identify the number of persons for each of the following:
 - Anticipated to have new access to this type of public facility or infrastructure improvement;
 - Anticipated to have improved access to this type of public facility or infrastructure improvement; or
 - Anticipated to be served by public facility or infrastructure that is no longer substandard.

NOTE: The total for each activity and outcome must not exceed the total number of beneficiaries identified in the application.

Additional Activity Information

Select only those that apply.

- *One-for-One Replacement* – requires that a grantee replace occupied and vacant units that are demolished or converted.
- *Revolving Loan Fund* – established to make loans whereby principal repayments of loans are re-paid into the fund and re-lent to other borrowers.
- *Brownfield Activity* – any activity designed to treat a piece of industrial or commercial property that is abandoned or underused and often environmentally contaminated, especially one considered as a potential site for redevelopment.
- *Special Assessment* – means the recovery of the capital costs of a public improvement, such as streets, water or sewer lines, curbs, and gutters, through a fee or charge levied or filed as a lien against a parcel of real estate as a direct result of benefit derived from the installation of a public improvement, or one-time charge made as a condition of access to public improvement.
- *Favored Activity* – certain activities specifically related to economic development.
- *Colonia* – Any identifiable unincorporated community that is determined to be a Colonia on the basis of objective criteria, including lack of potable water supply, lack of adequate sewage systems, and lack of decent, safe, and sanitary housing; and was in existence as a Colonia prior to the date of enactment of the Cranston-Gonzalez National Affordable Housing Act (November 28, 1990).
- *Presidentially Declared Disaster Area* – any area that is listed as an active disaster area on the Federal Emergency Management Agency website (www.fema.gov).
- *Historic Preservation Area* – any area that has been identified in accordance with the standards for the treatment of historic properties as set by the Secretary of the Interior.
- *Displacement* – a displaced person is any lower income family or individual that moves from real property, or moves his or her personal property from real property, permanently and involuntarily, as a direct result of the conversion of an occupied or vacant occupiable low/moderate income dwelling unit, or the demolition of any dwelling unit, in connection with an assisted activity.
- *Float Funded* – process by which a state’s CDBG funds are already under contract to grant recipient, yet the state awards the same funds to another grant recipient providing that the state is repaid before the initial grant recipient needs the funds to meet their obligation(s) for their CDBG funded activities.

Attachments

The application must be submitted with the following attachments, if applicable, in the order specified.

Resolutions

The application *must* be submitted with a resolution from the local governing body (i.e. County Commissioners Court of City Council) authorizing the submission of that application. The governing body must adopt/pass the resolution before the application submission and after the application public hearing. Failure to comply with these resolution requirements may result in disqualification of the application.

The language of the resolution must, at a minimum:

1. Authorize the submission of an application for funding under the Texas Community Development Block Grant Program.
2. Designate the State Urgent Need Fund as the fund category under which the application is to be considered.
3. Designate the activities addressed in the application.
4. Designate the dollar amount being requested.
5. Designate a person (e.g., County Judge, County Commissioner, or Mayor) who will be authorized to execute documents in conjunction with the application, and any resulting grant contract.
6. Commit to the provision of resources by source and use (if applicable) in support of the proposed project activities, including the specific source (e.g., General Fund, Water/Sewer Fund, General Obligation Bonds) and use of those resources.
7. Commit to compliance with all federal, state, and program requirements, including environmental review, labor standards, procurement, acquisition of property, civil rights, and administrative requirements.

In a multi-jurisdiction application, a cooperative agreement must also be included and signed by all participating local governments, and must state which participant will serve as the lead administrative entity if the project is funded.

Additionally, each locality participating in a multi-jurisdiction application must submit a resolution adhering to the guidelines above.

For a sample resolution, see Appendix V: Form/Document Samples.

Published Notices of Public Hearing and Application Activities

Prior to the preparation and submission of an application for TxCDBG funds, each applicant must hold at least one public hearing and publish a notice that describes the application activities and the availability of the application(s) for public review.

The public hearing gives citizens information about the Texas Community Development Block Grant Program and eligible program activities, as well as opportunities to participate in the development of the applicant's community development and housing needs and the development of TxCDBG applications.

The public notice gives citizens information on proposed uses for the funds and an opportunity to review and comment on the application(s) prior to submission.

Other requirements include:

- Public notices should be prominently posted in public buildings and distributed to local Public Housing Authorities and other interested community service providers.
- Ensure nondiscrimination by taking reasonable steps to ensure meaningful access for persons with Limited English Proficiency (LEP) by providing language assistance as appropriate.
- Persons with disabilities must be able to attend the hearing and an applicant must make arrangements for individuals who require auxiliary aids or services, if contacted at least two days prior to the hearing.
- Local organizations that provide services or housing for low-to-moderate income persons, including the local Public Housing Authority, Health and Human Services office, Faith-based organizations, and Mental Health and

Mental Retardation office, must receive written notification concerning the date, time, location and topics to be covered at the public hearing.

The written notification sent to local service providers for the public hearing must include the date, time, location and topics of discussion at the public hearing (a copy of the notice will suffice if it includes all required information). Send this notification to service providers serving the jurisdiction's residents – if a local office is located in the community, then that office should receive the notification. If a local office is not located in the community, send the notification to the local or regional office location that serves the jurisdiction's residents.

The following items are required as evidence of adherence with public hearing and public notice requirements:

1. A copy of the actual published public hearing notice:
 - a. full page of the newspaper with publication title and date; or
 - b. publisher's affidavit and a copy of the notice for the required public hearing; or
 - c. affidavit of posting (see Appendix IV), a copy of the notice for the required public hearing, and a printout/screenshot of publication of notice on applicant's website.

The notice must conform to the requirements of the Citizen Participation Plan, including specifics such as the date, time, location of the hearing and the topics to be discussed.

2. A copy of the actual published notice of the application(s) activities and availability of the application(s) for public review:
 - a. full newspaper page with the publication title and date; or
 - b. publisher's affidavit and a copy of the notice; or
 - c. affidavit of posting (see Appendix IV), a copy of the notice, and a printout/screenshot of publication of notice on applicant's website.

The notice must conform to the requirements of the Citizen Participation Plan including the timing of the published notice and the information included in the notice.

3. A listing of the local service providers that received written notification of the public hearing. Copies of the written notifications must be kept by the applicant and will be reviewed by TDA staff during site visits. Again, the written notification must conform to the requirements of the Citizen Participation Plan including specifying the date, time, and location of the hearing and the topics of discussion.

TDA recommends verifying that the public notices are published on the correct days, as well as allowing sufficient time for publication and public hearing issues to be resolved rather than completing these steps just prior to submitting the application.

For sample public notices, see Appendix V: Form/Document Samples.

Project Maps including Census Maps

Each application for TxCDBG funding must include a project map, or maps, which clearly show the following information:

- The boundaries of the applicant's jurisdiction;
- The boundaries of the county;
- Location(s) of the target area community or communities; and
- Location(s) of all proposed project activities (e.g., sewer/water lines, lift stations, street pavement, water storage tanks, water wells, wastewater treatment plants, public facility improvements, etc.)

Applicants using HUD-Census-based data to document project beneficiaries must provide maps that clearly show:

- All of the Census geographic areas (e.g., census tracts, block numbering areas, block groups) within the applicant's jurisdiction where census data is used to document project beneficiaries;

- Locations of the project activities (on the same census maps); and
- The census tract numbers, block numbering area numbers, and block group numbers must be legible.

If project beneficiaries are determined based on area benefit, the project area or service area boundaries must also be delineated on all maps. Maps must be reproducible. Care should be taken in copying maps so that project activities that may have been designated by a colored mark are still identifiable.

Documentation of Beneficiaries

Clear documentation of an applicant's beneficiary identification method **must** be received with the application. Applicants must include with their application either a completed survey of the target area; for previously completed surveys the TxCDBG Approval Letter and the Survey Tabulation Form or supporting documentation of the HUD based Census Low-to-Moderate-Income Summary Data (LMISD) spreadsheet for the census geographic area.

Evidence of Active SAM Registration

The applicant shall include a screen-shot from the System for Award Management (SAM) website at <https://sam.gov> verifying the entity's registration is active. Without evidence of an active SAM registration, the application is ineligible to receive HUD funds and will be disqualified.

Annual Audit

Applicants must comply with the audit requirements in the Texas Local Government Code. The applicant is required to submit their most recent annual audit with their application to demonstrate financial capacity. The auditor's opinion letter is preferred to the whole audit (note – not the management letter). Failure to submit an audit will result in automatic disqualification. A certified public accountant (CPA) who is licensed in this state or a public accountant who holds a permit to practice from the Texas State Board of Public Accountancy **must** conduct the audit and prepare the annual financial statement. **Applicants may not submit self-audits.** The audit must be an organizational-wide audit and cannot be limited to certain parts of the organization.

Copy of Gubernatorial Proclamation of Disaster

The applicant must provide a copy of the Gubernatorial Proclamation of Disaster.

Application Review Checklist

See following page for the Application checklist and instructions.

Applicant Name:_____

Application Review Checklist for State Urgent Need (SUN) Fund

The following items **must** be included in the application. If the application is found to be substantially incomplete it will be denied without further consideration. Applications that have deficiencies will be given 10 business days to satisfy those deficiencies. Applicant or Application Preparer must initial for each item included in the application or indicate that the item is not applicable. Print this page separately and insert directly behind the Application Coversheet.

| STATE URGENT NEED (SUN) FUND Application Contents | Initial if complete NA if not applicable |
|---|---|
| Original Application – Part 1 | |
| Completed 424 Form with original signature | |
| Project Approval Information with all question answered | |
| Community Needs Assessment | |
| Project Summary by Target area and locations identified & Source and Use of non-TxCDBG funds Disclosure | |
| Table 1 | |
| Table 2 | |
| National Program Objectives | |
| Pre-Agreement Request letter (if applicable) | |
| Attachments – Part 2 | |
| Resolution passed by the applicant | |
| Match documentation - Letter(s) of Commitment | |
| Public notices | |
| Copy of actual published public hearing notice or Publisher’s Affidavit and copy of notice | |
| Copy of actual published notice of application activities and availability of the application for public review or Publisher’s Affidavit and copy of notice | |
| Listing of the local service providers that were sent the written notification of the public hearing | |
| Project Maps | |
| Project Map documenting the Benefit area | |
| Census Maps for documenting the Benefit area | |
| FEMA Floodplain map indicating project location | |
| Documentation of Low-to-Moderate Income beneficiaries (See Appendix I) | |
| Evidence of active SAM Registration | |
| Most recent Annual Audit | |
| Copy of Gubernatorial Proclamation of Disaster | |
| Application Review Checklist | |

Appendix I: Matching Funds

TxCDBG will not accept matching funds from the United States Department of Agriculture Rural Development Programs for TxCDBG applications unless the applicant has submitted the preliminary application for the Rural Development grant or loan matching funds to Rural Development prior to the TxCDBG application deadline. Applicants planning to use Rural Development funds as match for TxCDBG funds cannot submit a TxCDBG application for the Community Development Fund or Colonia Construction Fund unless the applicant has submitted the application for Rural Development funds prior to the TxCDBG application deadline.

TxCDBG will not accept matching funds from the Texas Water Development Board Programs for TxCDBG applications unless the applicant has submitted the preliminary application or the required questionnaire for the Texas Water Development Board grant or loan matching funds to the Texas Water Development Board prior to the TxCDBG application deadline. Applicants planning to use Texas Water Development Board funds as match for TxCDBG funds cannot submit a TxCDBG application for the Community Development Fund, or Colonia Construction Fund unless the applicant has submitted the application or completed the required questionnaire for Texas Water Development Board funds prior to the TxCDBG application deadline.

Funds expended prior to the application deadline will not count as matching funds.

An applicant may procure professional services prior to the submission of the application to assist in the preparation of the application and/or to provide engineering/architectural or administration services needed for contract management purposes if the application is funded. However, costs for application preparation are not eligible for reimbursement with TxCDBG funds.

TDA strongly recommends that applicants follow the professional services procurement guidelines included in the most recent TxCDBG Implementation Manual to contract for such services. Following those guidelines will ensure a competitive process and compliance with all applicable state and federal requirements.

Match funds are valid only if committed for activities proposed for funding with TxCDBG funds and the match will be used in the same target areas as the TxCDBG funds, or the match will be used for activities that are directly related to supporting the activities proposed for TxCDBG funding.

Example #1 - An applicant proposes a water line replacement project in two different target areas. TxCDBG funds will finance the improvements in one target area and the applicant's match will be used to finance the improvements in the other target area. The applicant had already budgeted local funds for the water improvements in the applicant financed target area and did not claim any of the persons located in this target area as project beneficiaries. This match would not be considered because it is not committed to the TxCDBG financed target area beneficiaries, nor is it committed to the proposed TxCDBG-funded water improvements.

Example #2 - An applicant proposes water line replacement and street paving activities in the same target area and proposes that TxCDBG funds finance the water improvements and the applicant's match will finance the street paving improvements. Even though the match is committed to the same target area, this match would not be considered because the match is not committed to the TxCDBG-funded water activity. The applicant could complete the street paving improvements without TxCDBG funds.

Example #3 - An applicant proposes water line replacement and street paving activities in the same target area and proposes that TxCDBG funds finance 80% of water improvements costs and 50% of the street paving costs. The applicant's match will finance the remaining 20% and 50% of these activities. The applicant's match is allowed because it is committed to the same target area and activities proposed for TxCDBG funding.

Example #4 - An applicant proposes a sewer system improvements project that includes acquisition of easements and a site for a lift station. TxCDBG funds will finance 100% of the sewer system construction improvements and the

applicant's match will finance 100% of the acquisition, engineering, and administrative costs related to the delivery of the construction improvements. This match is considered allowable because the acquisition, engineering and administrative costs are directly related to the TxCDBG funded sewer construction activity.

Example #5 –An applicant proposes to provide first-time water service in a project area where 90% of the households are low-to moderate-income households. Only applicant's (or other entity's) funds in support of rehabilitation activities benefiting low- to moderate- income households are considered matching funds. Any applicant's (or other entity's) funds used to provide first-time water service to the 10% non-low-to moderate-income households are NOT acceptable as matching since they do not support an eligible TxCDBG activity.

Match is acceptable only if the applicant has used an acceptable and reasonable method to document the value of the match.

Except for cash match, the applicant must provide an attachment/schedule to Table 2, Budget Justification, which shows how the value of each type of match was determined. The following documentation is acceptable:

Cash

Acceptable documentation for cash match is described in “*Letter(s) of Commitment*” section (e.g., local government resolution, letters of commitment from other local entities, state/federal agency contract award letter, etc.).

Force Account Labor (in-kind service)

The value of force account labor match must be based on the estimated TxCDBG contract-related construction hours to be worked by force account workers and the hourly wages to be paid and cannot be based on labor costs estimated through the bid/contract method.

The applicant must provide an attachment/schedule that shows how the value of the match was determined (number of estimated contract-related construction hours multiplied by the hourly wage rates paid for each worker). Documentation regarding this information should be included.

Administration/Engineering (in-kind service)

The value of in-kind administration and engineering match must be based on the estimated TxCDBG contract-related hours to be worked by administrative/engineering staff and the hourly wages or salary to be paid and cannot be based on a percentage of the project cost method or on an estimated cost of the service(s) if an administrative/engineering consultant(s) were hired.

The applicant must provide an attachment/schedule that shows how the value of the match was determined. The schedule should include the estimated contract-related staff-work hours multiplied by the hourly wages or salary to be paid and the estimated value of other TxCDBG-eligible administration/engineering costs (e.g., materials, supplies, bonding, postage, audits, plans/specifications, construction mapping, etc.). If you are unsure about the eligibility of any administrative or engineering costs, please contact TDA staff for a determination.

Equipment Use (in-kind)

The value of in-kind equipment use match for equipment owned by the locality must be based on a use allowance or depreciation (both cannot be used for the same piece of equipment) and cannot be based on the estimated rental cost of such equipment if already owned by the locality.

To document the value of estimated in-kind equipment use match based on a use allowance, the applicant may use equipment hourly rates and mileage rates established by the Federal Emergency Management Agency (available from TxCDBG under separate cover).

Depreciation value may be used only if the equipment is not already fully depreciated and the schedule is based on acquisition cost. The applicant must provide an attachment/schedule that shows how the value of the match was determined.

If determining value by use allowance, the schedule must include a list of the equipment (including the capacity or size of the equipment), the hourly use rate or mileage rate, and the number of estimated hours or miles that each piece of equipment will be used on project related activities.

If determining value based on depreciation, the schedule must include a list of the equipment, the depreciation schedule, and the acquisition cost of each piece of equipment.

Materials and Supplies

The value of materials/supplies to be provided by the applicant, and already owned by the applicant, must be based on the purchase price of the materials/supplies at the time of purchase and cannot be based on the current purchase price of such materials and supplies.

The applicant must provide an attachment/schedule that shows how the value of the match was determined. The schedule must include a list of the materials/supplies to be provided by the applicant, the number of units and the unit price acquisition cost of each material/supply.

Land

The value of land donations of public or private property must be based on an independent appraisal report establishing the fair market value or on the purchase price of the property at the time of purchase.

Either way, the value claimed must be based on the amount of property actually needed for the project (e.g., the applicant cannot claim the value for a 200-acre tract of land if only one acre is needed for the project).

The applicant must provide the appraisal report or deed of purchase establishing the value of the property needed for the project.

Appendix II: Sample Table 1 & Table 2

TABLE 1 Complete a separate table for each activity or colonia target area.

Add Another Table 1

Remove this Table 1

Identify the target area for this project. Only one Table 1 is needed if the same target area, beneficiaries, and national objective apply. If any of these are different, add a new Table 1. Refer to the Application Guide for instructions.

Target Area: Hinds County - FM 220

Appendix III: TxCDBG Activity Code Reference Table

| Code | Description |
|-------------|--|
| 01 | <p>Acquisition of Real Property Acquisition of real property that will be developed for a public purpose. Use code 01 for the CDBG-funded purchase of real property on which, for example, a public facility or housing will be constructed.</p> <p>When CDBG funds are used to:</p> <ul style="list-style-type: none"> acquire a public facility that will be rehabilitated with CDBG funds and continue to be used as a public facility, assign the appropriate 03* code. acquire housing that will be rehabilitated, use code 14G. |
| 02 | <p>Disposition of Real Property Costs related to the sale, lease, or donation of real property acquired with CDBG funds or under urban renewal. These include the costs of temporarily maintaining property pending disposition and costs incidental to disposition of the property.</p> |
| 03A | <p>Senior Centers Acquisition, construction, or rehabilitation of facilities (except permanent housing) for seniors. 03A may be used for a facility serving both the elderly and the handicapped, provided it is not intended primarily to serve persons with handicaps. If it is, use 03B instead. For the construction of permanent housing for the elderly, use code 12; for the rehabilitation of such housing, use the appropriate 14* code.</p> |
| 03D | <p>Youth Centers Acquisition, construction, or rehabilitation of facilities intended primarily for young people age 13 to 19. These include playground and recreational facilities that are part of a youth center. For the acquisition, construction or rehabilitation of facilities intended primarily for children age 12 and under, use 03M; for facilities for abused and neglected children, use 03Q.</p> |
| 03E | <p>Neighborhood Facilities Acquisition, construction, or rehabilitation of facilities that are principally designed to serve a neighborhood and that will be used for social services or multiple purposes (including recreational). Such facilities may include libraries and public schools.</p> |
| 03F | <p>Parks, Recreational Facilities Development of open space areas or facilities intended primarily for recreational use.</p> |
| 03G | <p>Parking Facilities Acquisition, construction, or rehabilitation of parking lots and parking garages. Also use 03G if the primary purpose of rehabilitating a public facility or carrying out a street improvement activity is to improve parking. If parking improvements are only part of a larger street improvement activity, use 03K.</p> |
| 03I | <p>Flood Drainage Improvements Acquisition, construction, or rehabilitation of flood drainage facilities, such as retention ponds or catch basins. Do not use 03I for construction/rehabilitation of storm sewers, street drains, or storm drains. Use 03J for storm sewers and 03K for street and storm drains.</p> |

| | |
|------------|--|
| 03J | <p>Water/Sewer Improvements Installation or replacement of water lines, sanitary sewers, storm sewers, and fire hydrants. Costs of street repairs (usually repaving) made necessary by water/sewer improvement activities are included under 03J.</p> <p>For water/sewer improvements that are part of:</p> <ul style="list-style-type: none"> • more extensive street improvements, use 03K (assign 03K, for example, to an activity that involves paving six blocks of Main Street and installing 100 feet of new water lines in one of those blocks). • a housing rehabilitation activity, use the appropriate 14* matrix code. <p>For construction or rehabilitation of flood drainage facilities, use 03I.</p> |
| 03K | <p>Street Improvements Installation or repair of streets, street drains, storm drains, curbs and gutters, tunnels, bridges, and traffic lights/signs.</p> <p>Also use 03K:</p> <ul style="list-style-type: none"> • for improvements that include landscaping, street lighting, and/or street signs (commonly referred to as “streetscaping”). • if sidewalk improvements (see code 03L) are part of more extensive street improvements. |
| 03L | <p>Sidewalks Improvements to sidewalks. Also use 03L for sidewalk improvements that include the installation of trash receptacles, lighting, benches, and trees.</p> |
| 03M | <p>Child Care Centers Acquisition, construction, or rehabilitation of facilities intended primarily for children age 12 and under. Examples are daycare centers and Head Start preschool centers.</p> <p>For the construction or rehabilitation of facilities for abused and neglected children, use 03Q. For the construction or rehabilitation of facilities for teenagers, use 03D.</p> |
| 03O | <p>Fire Stations/Equipment Acquisition, construction, or rehabilitation of fire stations and/or the purchase of fire trucks and emergency rescue equipment.</p> |
| 03P | <p>Health Facilities Acquisition, construction, or rehabilitation of physical or mental health facilities. Examples of such facilities include neighborhood clinics, hospitals, nursing homes, and convalescent homes. Health facilities for a specific client group should use the matrix code for that client group. For example, use 03Q for the construction or rehabilitation of health facilities for abused and neglected children.</p> |
| 03 | <p>Other Public Facilities and Improvements Do not use this code unless an activity does not fall under a more specific 03* code. Also, do not use one activity for multiple facilities and then assign it an 03 because the types of facilities are different. One legitimate use of 03 is for activities that assist persons with disabilities by removing architectural barriers from or providing ADA improvements to government buildings (activities that otherwise would not be eligible for CDBG funding).</p> |

| | |
|------------|--|
| 04 | Clearance and Demolition Clearance or demolition of buildings/improvements, or the movement of buildings to other sites. |
| 05D | Youth Services Services for young people age 13 to 19 that include, for example, recreational services limited to teenagers and teen counseling programs. Also use 05D for counseling programs that target teens but include counseling for the family as well. For services for children age 12 and under, use 05L; for services for abused and neglected children, use 05N. |
| 05L | Child Care Services Services that will benefit children (generally under age 13), including parenting skills classes. For services exclusively for abused and neglected children, use 05N. |
| 05M | Health Services Services addressing the physical health needs of residents of the community. For mental health services, use 05O. |
| 05R | Homeownership Assistance (not direct) Homeowner down payment assistance provided as a public service. If housing counseling is provided to those applying for down payment assistance, the counseling is considered part of the 05R activity. Assistance provided under 05R must meet the low/mod housing national objective. Therefore, unless the assistance is provided by an 105(a)(15) entity in a CRSA, it is subject to the public service cap and only low/mod households may be assisted. If the assistance is provided by a 105(a)(15) in a CRSA, the housing units for which CDBG funds are obligated in a program year may be aggregated and treated as a single structure for purposes of meeting the housing national objective (that is, only 51% of the units must be occupied by LMI households). For more extensive types of homeownership assistance provided under authority of the National Affordable Housing Act, use code 13. |
| 05U | Housing Counseling Housing counseling for renters, homeowners, and/or potential new homebuyers that is provided as an independent public service (i.e., not as part of another eligible housing activity). |
| 05 | Other Public Services Do not use this code for public services activities unless an activity does not fall under a more specific 05* code. Examples of legitimate uses of this code are referrals to social services, neighborhood cleanup, graffiti removal, and food distribution (community kitchen, food bank, and food pantry services). |
| 06 | Interim Assistance Only for activities undertaken either to: <ul style="list-style-type: none"> • Make limited improvements (e.g., repair of streets, sidewalks, or public buildings) intended solely to arrest further deterioration of physically deteriorated areas prior to making permanent improvements. • Alleviate emergency conditions threatening public health and safety, such as removal of tree limbs or other debris after a major storm. |

| | |
|------------|--|
| 08 | Relocation Relocation payments and other assistance for permanently or temporarily displaced individuals, families, businesses, non-profit organizations, and farms. |
| 14A | Rehab: Single-Unit Residential Rehabilitation of privately owned, single-unit homes. |
| 14A | Rehab: Single-Unit Residential Water Services First-time yard lines/service connections. |
| 14A | Rehab: Single-Unit Residential Sewer Services First-time yard lines/service connections and on-site sewage facilities. |
| 14B | Rehab: Multi-Unit Residential Rehabilitation of privately owned buildings with two or more permanent residential units. For the rehabilitation of units that will provide temporary shelter or transitional housing for the homeless, use 03C. |
| 14C | Rehab: Public Housing Modernization Rehabilitation of housing units owned/operated by a public housing authority (PHA). |
| 14D | Rehab: Other Publicly Owned Residential Buildings Rehabilitation of permanent housing owned by a public entity other than a PHA. For the rehabilitation of other publicly owned buildings that will provide temporary shelter or transitional housing for the homeless, use 03C. |
| 14H | Rehab: Administration All delivery costs (including staff, other direct costs, and service costs) directly related to carrying out housing rehabilitation activities. Examples include appraisal, architectural, engineering, and other professional services; preparation of work specifications and work write-ups; loan processing; survey, site, and utility plans; application processing; and other fees. Do not use 14H for the costs of actual rehabilitation and do not use it for costs unrelated to running a rehab program (e.g., tenant/landlord counseling). For housing rehabilitation administration activities carried out as part of general program administration (and thus not required to meet a national objective), use code 21. |
| 15 | Code Enforcement Salaries and overhead costs associated with property inspections and follow-up actions (such as legal proceedings) directly related to the enforcement (not correction) of state and local codes. For the correction of code violations, use the appropriate rehabilitation code. |
| 16A | Residential Historic Preservation Rehabilitation of historic buildings for residential use. |
| 16B | Non-Residential Historic Preservation Rehabilitation of historic buildings for non-residential use. Examples include the renovation of an historic building for use as a neighborhood facility, as a museum, or by an historic preservation society. |

| | |
|------------|--|
| | |
| 18A | Economic Development: Direct Financial Assistance to For-Profits Financial assistance to for-profit businesses to (for example) acquire property, clear structures, build, expand or rehabilitate a building, purchase equipment, or provide operating capital. Forms of assistance include loans, loan guarantees, and grants. With one exception, a separate 18A activity must be set up for each business assisted. The exception is an activity carried out under 570.483(b)(4)(vi), for which job aggregation is allowed. |
| 19C | CDBG Non-Profit Organization Capacity Building Activities specifically designed to increase the capacity of non-profit organizations to carry out eligible community revitalization or economic development activities. Such activities may include providing technical assistance and specialized training to staff. |
| 20 | Planning Program planning activities, including the development of comprehensive plans (e.g., a consolidated plan), community development plans, energy strategies, capacity building, environmental studies, area neighborhood plans, and functional plans. |
| 21A | General Program Administration Overall program administration, including (but not limited to) salaries, wages, and related costs of grantee staff or others engaged in program management, monitoring, and evaluation. Also use 21A to report the use of CDBG funds to administer Federally designated Empowerment Zones or Enterprise Communities. For CDBG funding of HOME admin costs, use 21H; for CDBG funding of HOME CHDO operating expenses, use 21I. |

For a more comprehensive list of activity codes, go to:
(http://archives.hud.gov/offices/cpd/systems/idis/library/refmanual/ref_man_b.pdf)

Appendix IV: Form and Document Samples

Sample Resolution

RESOLUTION

A RESOLUTION OF THE COMMISSIONERS COURT OF (XYZ) COUNTY, TEXAS, AUTHORIZING THE SUBMISSION OF A TEXAS COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM APPLICATION TO THE TEXAS DEPARTMENT OF AGRICULTURE FOR THE (STATE URGENT NEED FUND); AND AUTHORIZING (THE COUNTY JUDGE) TO ACT AS THE COUNTY'S EXECUTIVE OFFICER AND AUTHORIZED REPRESENTATIVE IN ALL MATTERS PERTAINING TO THE COUNTY'S PARTICIPATION IN THE TEXAS COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM.

WHEREAS, the Commissioners Court of (XYZ) County desires to develop a viable community, including decent housing and a suitable living environment and expanding economic opportunities, principally for persons of low-to-moderate income; and

WHEREAS, certain conditions exist which represent a threat to the public health and safety; and

WHEREAS, it is necessary and in the best interests of (XYZ) County to apply for funding under the Texas Community Development Block Grant Program;

NOW, THEREFORE, BE IT RESOLVED BY THE COMMISSIONER'S COURT OF (XYZ) COUNTY, TEXAS:

1. That a Texas Community Development Block Grant Program application for the (State Urgent Need Fund) is hereby authorized to be filed on behalf of the County with the Texas Department of Agriculture.
2. That the County's application be placed in competition for funding under the (e.g., State Urgent Need Fund).
3. That the application be for (\$350,000.00) of grant funds to provide (e.g., Debris Removal).
4. That the Commissioners Court directs and designates (the County Judge) as the County's Chief Executive Officer and Authorized Representative to act in all matters in connection with this application and the County's participation in the Texas Community Development Block Grant Program.
5. That all funds will be used in accordance with all applicable federal, state, local and programmatic requirements including but not limited to procurement, environmental review, labor standards, real property acquisition, and civil rights requirements.

Passed and approved this ____ day of _____, 20__.

Sample Public Hearing Notice and Application Activities Notice

SAMPLE PUBLIC HEARING NOTICE:

Published on (July 14, 20XX):

PUBLIC HEARING NOTICE

(XYZ) COUNTY

TEXAS COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

(XYZ) County will hold a public hearing at 7:00 p.m. on July 14, 20XX, at (XYZ) County Courthouse regarding the submission of an application to the Texas Department of Agriculture for a Texas Community Development Block Grant Program (TxCDBG) grant. The purpose of this meeting is to allow citizens an opportunity to discuss the citizen participation plan, the development of local housing and community development needs, the amount of TxCDBG funding available, all eligible TxCDBG activities, and the use of past TxCDBG funds. The County encourages citizens to participate in the development of this TxCDBG application and to make their views known at this public hearing. Citizens unable to attend this meeting may submit their views and proposals to (John Doe), County Judge at the County Courthouse. Persons with disabilities that wish to attend this meeting should contact the County Courthouse to arrange for assistance. Individuals who require auxiliary aids or services for this meeting should contact the County Courthouse at least two days before the meeting so that appropriate arrangements can be made. Para más información en español, comuníquese con [local contact name] al XXX-XXX-XXXX.

SAMPLE APPLICATION ACTIVITIES NOTICES:

Published on (September 26, 20XX):

PUBLIC NOTICE

(XYZ) COUNTY

TEXAS COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

(XYZ) County is giving notice of the county's intent to submit Texas Community Development Block Grant Program grant applications for a (State Urgent Need Fund) grant request of (\$350,000) for (debris removal) in the (community of XX). The application is available for review at the (XYZ) County Courthouse during regular business hours. Para obtener una copia en español, comuníquese con [local contact name] al XXX-XXX-XXXX.

Sample – Affidavit of Posting – Notice of Public Hearing

I, _____, do hereby certify that pursuant to the laws of the State of Texas and of the City/County of _____, a Notice of the City/County's Notice of Public hearing on the development of TxCDBG application(s) was posted on _____. The public notice was conspicuously posted at _____ in a manner plainly visible to the general public on _____, 20 ____ through _____, 20 ____ (*at least 72 hours prior to public hearing and at least one day prior to signing this affidavit*). Pursuant to TxCDBG requirements, the physical address and location of the notice was as follows: (for example, lower left corner of east window, or in the center of the north door, etc.)

Attach a photograph of the Notice(s) as posted on the premises.

EXHIBIT A

PERFORMANCE STATEMENT

All activities funded with TxCDBG funds must meet one of the CDBG program's National Objectives: benefit low- and moderate-income (LMI) persons, aid in the prevention or elimination of slums or blight, or meet community development needs having a particular urgency.

Contractor shall carry out the following activities in the target area identified in the Application. The Contractor shall ensure that the amount of funds expended for each activity described does not exceed the amount specified for such activity in the Budget.

CURRENT NEED

Due to flooding events in August and September of 20XX, the spillway and dam of Lake Doña, which is a major source of water for the City of XYZ Town, experienced extensive damage and erosion, resulting in potential failure of the dam.

The Contractor certifies that the activity (ies) carried out under this contract will meet the National Objective of meeting community development needs having a particular urgency.

ACTIVITIES

Water Improvements Contractor shall reconstruct the spillway to prevent the potential failure of the Lake Doña dam. Contractor shall remove damaged concrete, excavate, install approximately one thousand five hundred cubic yards (1,500 c.y.) of backfill, two hundred fifty cubic yards (250 c.y.) of pressure grout, two hundred fifty cubic yards (250 c.y.) of structural concrete, one thousand six hundred square yards (1,600 s.y.) of riprap, clean and seal joints and cracks, and all associated appurtenances. Construction shall take place at the spillway of Lake Doña, located at 3400 SE CR 0030.

These activities shall benefit twenty-two thousand four hundred forty (22,440) persons, of which ten thousand six hundred eighty (10,680) or forty-eight percent (48%) are of low- to moderate-income.

Engineering

Contractor shall ensure that the amount of Department funds expended for all eligible project-related engineering services, including preliminary and final design plans and specifications, all interim and final inspections, and all special services does not exceed the amount specified for engineering in the Budget.

General Administration

Contractor shall ensure that the amount of Department funds expended for all eligible project-related administration activities, including the required annual program compliance and fiscal audit does not exceed the amount specified for administration in the Budget.
